A1400 - Master Keys

Overview

Qualifications in Convergence are represented by "Account properties". Each account property is defined for a given account and on 3 axis (the Master Keys).

Introduction

Masters keys are a set of 3 axis :

1. Geographical Axis : Zone, Country, Site
2. Organisational Axis : GBU, Business lines
3. GPS Axis : Domain, Segment, Material Group, Sub-Material group

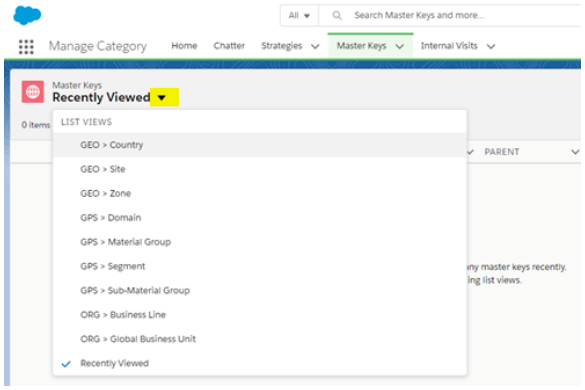
Master keys are common master data shared through all the company and can evolve (new GBU, new sites, etc.)

Master keys are the axes used to define qualifications but also qualification processes, properties...

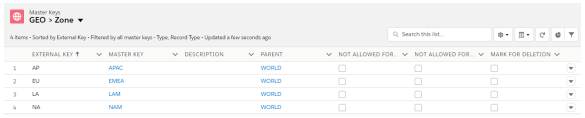
General navigation

Master keys have a dedicated tab in the "Manage Category" application

A set of Listviews is available to help you to navigate through those Master Keys.



Open one of those Listviews



Open a Master key to get more information

Every Master Key is structured the same way : details and then related lists

Master Key : the name of this Master key.

Parent : the parent Master key in the hierarchy.

Mark for Deletion : cannot be used in new account properties (qualification) anymore.

Record Type : GEO axis, ORG axis, GPS axis.

Type : Zone, Country, Site (for GEO axis).

External Key : a unique identifier for this Master Key.

On the right side of the Master Key details, you will find some useful related lists :

Master Keys : all the children Master Keys in the hierarchy.

Account Properties : all the account properties (=supplier qualifications) for this Master Key.

Related object : all the objects (Qualification process, Visit Minutes, Internal Visits or Contact) for this Master Key

And much more information related to a specific Master Key
