Hi Gab,

Below are the two KDDs that have been updated and now require stakeholder approval. Both topics were previously presented to SteerCo; however, since the current changes are minor, we do not believe SteerCo approval is required. Can you please check the below and approve so that we can approve these. Apologies I am not able to attach the PDF for these as the confluence is not downloading the "In Progress" Version.

KDD055 - Multi Language Support : The document specifies enabling three additional logon languages (Brazilian Portuguese, German, and Spanish) for blue-collar workers (Maintenance and Production). With this update, Logistics (Warehouse Operations) has also been added to the blue-collar worker group. As a result, these users will also have access to the same three additional logon languages.

[KDD055 - Multi-Language Support - SyWay Project - Syensqo - Wiki knowledge base](#)

KDD011 Material Master Numbering Alignment - This document has been updated to capture the requirement for Composite Materials to retain their legacy material numbers.

[KDD011 - Material Master Numbering Alignment - SyWay Project - Syensqo - Wiki knowledge base](#)

Regards,
Bhargavi.
