Bonjour Edouard,
Pour info. Le KDD est donc approuvé par tous les Stakeholders.
Bonne journée
Pascal

Pascal,

I went into documents and approved in comments section,

Thanks for the support.

Scott

Hello Scott,

Hope you're doing well.

I know this is a bit administrative, but could you please officially approve KDD086 ([link](#)) – the adoption of LabWare as the tool for the Quality Inspection process within Syensqo?

Based on our conversations, I'm assuming it's good to go—just need your formal approval to close it out.

Pascal
