

I release the standard cost calculation

Process: [Product Costing](#)

Responsibility area: [Perform product costing monthly closing](#)

The costing should be marked and the release scheduled after validation of the FRA on D-1 - 12pm

Guideline

The FRA must send by D-1 - 12pm its validation

Check Point

After completing the first 4 steps, the plant controller should analyze if the standard prices are correct and correct eventual errors. The next steps "Marking" and "Release" are only performed after plant controller approval. Before the marking, the first 4 steps can always be executed as much times as needed and must be repeated after controllers corrections to confirm that the errors were solved.

You can go to the step "Marking" when you receive the approval of the FRA

All error & warning

messages are cleared (in some cases it is not possible to clear warning messages but at least a deep analysis must be performed)

Create Cost Estimate

STEP 6

After the Marking step is finished, all the materials should be valued.

Costing Run	ZFR3SCE	Description	Rhodia Opérations CCR Mois de November 2015					
Costing Run Date	31.10.2015							
General Data								
Create Cost Estimate								
Flow Step	Authorization	Parameter	Execute	Log	Status	Materials	Er...	Still Open
Selection						7007	0	
Struct. Explosion						7007	0	
Costing						7007	0	0
Analysis								
Marking						7006	0	1
Release								

We should not have materials "still open".

Still Open" Materials?

1. Go to CK40N (Edit mode), of the respective Costing run 5835SCE & Date
2. Enter the =CKSU in T-CODE command bar
3. Press enter.

Then, this message will appear and the error will be resolved.

NOTE:

If you have errors, you must identify them by checking the "Log".

The errors should be checked and rectified if possible in the current month. To avoid the same to happen on the next costing run.

STEP 1

The cycle continues with the validation. Click on the icon  in the column **Parameter** / line **Release**

STEP 2

1. Uncheck the test mode.
