3.2 I submit a request for a cost center creation or modification

It is highly recommended that you input the parameters in the "master data" tab when you are requesting the creation / update of cost centers as it **reduces the processing time**. Nevertheless, if you have difficulties in putting the data in the "master data" tab, you can attach an excel file with all the mandatory parameters:

- Type of cost center (production, commercial, administrative);
- BFC heading/value field where the costs should be reported;
- Profit center (WP1)/Business area (PF1);
- Person responsible.

STEP 1

! As the processes differ depending on the type of action (create, update, lock, unlock) and the ERP system involved, a separate request must be submitted for each system and each specific operation.

In SAP PRS 050 go to transaction ZZF_MDWF_REQUEST. Select "Cost center" in category field and "Create" in action field. Populate the title and the system landscape.

STEP 2

Open the tab

, click

"append row" button (1) and create as many rows as cost centers you want to create / update (2).

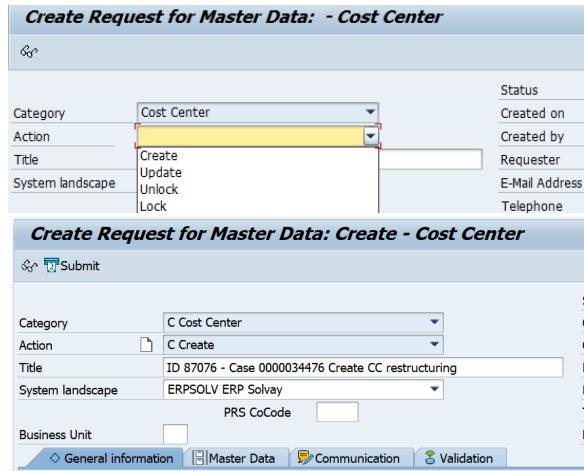

i Never use the yellow line to enter your request, it is a technical line used for mass changes only.

STEP 3

Fill mandatory fields listed below and press check 

- Company code
- Cost center Code
- Valid from
- English short name & long description
- Person responsible
- Cost Center Category
- Standard hierarchy area
- Alternative hierarchy
- Business area (in PF2 only)
- Profit center
- Foreseen amount
- IECRA (for WP2 only)

i **Create from reference**
You can use an existing cost center to pre fill the information and replace the existing cost center codes by the ones to be created and adapt the information to your requirement.
