

Profit Center - Master Data

There are 2 types of profit centers in PF2:

1. Reporting profit centers

In PF2, the determination of the [business structure](#) is done in the [P&L](#) using a [reporting profit center](#) that is in the COPA posting. To make this everything works (through interfaces):

- All [material codes](#) should be assigned to a reporting profit center (in the view "costing 1")
- All objects in CO should be assessed to a profit center in COPA

2. Organizational profit centers

All CO objects (cost centers, orders, WBS) are assigned to a non reporting profit center
In WP2 the profit center is used to:

Assign the following variances to the P&L (COPA)

- Variances on purchase
- Inventory differences
- Variances on transfer
- Variances on process order
- Revaluation variances

Split the [Working Capital](#) by enterprise

- Split the accounts payable and the stocks by CGU (Cash Generating Unit)

Calculate some indicators of the industrial dashboard and identify by Value Stream

- Inventories
- Variable costs (the actual ones posted through process order)
- Fixed costs (from the direct production costs center)
- Freight on sales costs (from the P&L and freight on sales cost centers)
- Accounts payable

Note

In WP2, since we can not restrict the usage of the profit center to a certain controlling area, it is recommended that whenever creating a new profit center in a certain controlling area, it's also extended to the VPART nodes in the other active controlling areas.

 Profit center master data are displayed with [KE53 - Display Profit Center](#)

PIF level

Standard codification

The codification of a reporting profit center used at PIF level:

- **Letter F**
- **Activity 1 code** - 2 characters of the Reporting Division from SM30 table V_134G, Division code (check in Material Master Data (MM03), tab Basic Data 1, the field Division) + Plant code, to get the correct Business Area.
- **PIF code** - Use the first 5 characters of the PIF code (complete with "X" to reach 5 characters). To identify the correct code, go to **T-code MM03 Basic Data 1** tab, check the **Prod. Hierarchy** field. In **SM30 table ZZRT179V**, confirm that the **Prod. Hierarchy** code is marked with an "X" in the **Flag PIF** column.
- **Country of origin** - 1 character for the country code of the industrial origin, i.e. where the goods are manufactured - see appendix for the codes.
- A - Austria

B - Belgium

C - Switzerland

D - Germany

E - Spain

F - France

G - Great Britain - UK

H - China

I - Italy

J - Japan

K - Korea

L - India

M - Mexico

N - Netherlands

O - Russia (possible extension to other countries)

P - Portugal

Q - Not used

R - Brazil

S - Finland (possible extension to other countries)

T - Thailand

U - USA

V - Argentina

W - Not used

X - Improperly used for some "3rd parties" and some other strange ones

Y - Egypt, Saudi Arabia, Chile and other miscellaneous countries

Z - Inovyn Martorell - other / future use to determine

1 - Rhodia EMEA region (only for "green" GBU - when production center is not specifically known) - corresponding to industrial origin 9991

2 - Rhodia NAM region (only for "green" GBU - idem) - corresponding to industrial origin 9992

3 - Rhodia LATAM region (only for "green" GBU - idem) - corresponding to industrial origin 9993

4 - Rhodia APAC region (only for "green" GBU - idem) - corresponding to industrial origin 9994

9 - Third parties - corresponding to industrial origin 9997

- **Code packaging** - 1 character (normally a digit) to differentiate - normally odd for packed and even for bulk.

These profit centers are used for postings at the lower level of detail
: PIF + industrial origin.

Activity 1 level

Standard codification

The codification of a reporting profit center used at Activity 1 level

- **D + Business Area**
 - Letter **D**
 - **Business Area**
 - Sector code
 - Activity 1 code
 - Free

These profit centers are used for posting at "company code" + "BFC Activity 1" level. Should wait until the Business Area has been created by APDM and is available in PF2_020 before creating the D* profit center.

Profit centers at company & company/object levels should not be used anymore

Before the project SPS (COPA in PF2) there were 2 other types of reporting profit centers:

At company level

They were used for posting at "company code" level for which there was no subdivision between GBU or BFC Activities.

The codification of a reporting profit center used at Company code level was:

- Letter E
- Company code

At company & object level

These profit centers represent the shares of the company hold by other Solvay companies. Can be created for any Solvay companies, operating in the ERP Solvay or not.

The codification of a reporting profit center used at Company code and object level was:

- Letters SCHEF
- Company code

Reporting profit centers at company & company/object levels should not be used anymore

Standard codification

The codification of an organizational profit center

- Letter C
- Plant code

Codification - Standard codification

The codification of a profit center is

- Company code or plant code
- Letter
- Last 4 digits of the IECRA

The recommended practice is to put a Profit Center with "plant" codification in the Master Data of a "plant" Cost Center

Example

Codification of a profit center for
Novacare in the plant 8091
Zhuhai

Usually it is created from the 1st day of the current year to 31.12.9999

In PF2, the name of a profit center is critical for the reporting, the rules must be strictly followed.

PIF level

The name of a reporting profit center used at PIF level (F)

- **position 1-3** = first 3 characters of the [Business Area](#) ([Sector code](#) + [Activity 1 code](#))
- **positions 4-5** = Spaces
- **positions 6-10** = [PIF code](#) (always in **Caps Lock**) + spaces to make it 5 chars
- **positions 11-14** = industrial origin code - see transaction [ZPRI](#) - in case of tolling in an external plant, use the one of the Syensqo plant responsible for the tolling
 - 9997 for product bought outside the group from third parties
 - 9991 - 9994 for Rhodia GBU for which we do not know the specific industrial origin
- **position 15** = E (packed) or V (bulk) if a differentiation is made at that level.
- **positions 16-20** = free (not relevant for BFC)

Example

The name of the profit center F49JLAXXU1 is **349 JLA 3272E**

- [Sector code](#) = **3** PLASTICS
- Reporting [Activity 1 code](#) = **49** FLUOR MATERIALS
- "empty"
- [PIF code](#) = **JLA** Tecnoflon
- Industrial origin code = **3272** SOLVAY SPOL US
- Packaging code = **E** Packed
- "empty"

The long text of a reporting profit center used at PIF level (F)

- Description of the [PIF](#) from [table view ZZRT179V](#)

- Space - hyphen - space
- City name of the establishment (EMEA... for 9991 - 9994 - and "3RD PARTIES" for industrial origin 9997)
- Space - hyphen - space
- "PACK" or "PACKED" // "BULK"

Note: If over the SAP 40-chars limit, abbreviate the names according to SLV traditions.

Descriptions			
Profit Center	F49JLAXXU1	Status	Inactive: Change
Analysis Period	01.01.2006	to	31.12.9999
Name	349 JLA 3272E		
Long Text	Tecnoflon - W DEPTFORD - PACK		

Activity 1 level

Example

The name of the profit center D3490 is **349**

- Sector code = **3** PLASTICS
- Reporting Activity 1 code = **49** FLUOR MATERIALS
- "empty"
- not applicable
- "empty"

The name of a reporting profit center used at PIF level (D)

- **position 1-3** = first 3 characters of the Business Area (Sector code + Activity 1 code) - essential as used by COPA / BW for automatic determination
- **positions 4-10** = Spaces
- **positions 11-14** = Industrial origin code (only for specifics cheops value item like "ARRET")
- **position 15** = Spaces
- **positions 16-20** = Free (not relevant for BFC)

The long text of a reporting profit center used at PIF level (D)

- Description from table ZZR_REPO_DIV taking the middle 2 characters from the Business Area (ex. profit center D9TN0 - search for "TN").

Descriptions			
Profit Center	D9TN0	Status	Active
Analysis Period	01.01.2016	to	31.12.9999
Name	9TN		
Long Text	TSNR - TECHNO SOLUTIONS UNALL		

Company level

The name of a reporting profit center used at company level (E)

- **positions 1-4** = Reporting company code
- **positions 5** = Space
- **positions 6-20** = Company "Enterprise abbreviation" from transaction ZPRI
- **last 3 positions** = "hyphen"+"Country code" (from transaction ZPRI)

Example

The name of the profit center E6288 is **6288 SFLX-DE**

- Reporting company code = **6288**
- "empty"
- Enterprise abbreviation = **SFLX**
- "Hyphen"
- County = **DE**

The long text of a reporting profit center used at company level (E)

- **positions 1-4** = Reporting company code
- **positions 5** = Space
- **positions 6-20** = Company "Enterprise medium name" from transaction [ZPRI](#)

Descriptions			
Profit Center	E6288	Status	Active
Analysis Period	01.01.2016	to	31.12.9999
Name	6288 SFLX-DE		
Long Text	6288 SOLVAY FLUX		

Company and object level

The name of a reporting profit center used at Company and object level (S)

- **positions 1-4** = Object company code
- **positions 5** = Space
- **positions 6-20** = Company "Enterprise abbreviation" from transaction [ZPRI](#) in PRS
- **last 3 positions** = "hyphen"+"Country code" (from transaction [ZPRI](#))

Example

The name of the profit center SCHEF6329 is **6579 FIOP-BR**

- Object company code = **6579**
- "empty"
- Enterprise abbreviation = **FIOP**
- "Hyphen"
- County = **BR**

The long text of a reporting profit center used at Company and object level (S)

- **positions 1-13** = PARTICIPATION
- **position 14** = Space
- **position 15-18** = Object company code
- **positions 19** = Space
- **last positions** = Company "Enterprise medium name" from transaction [ZPRI](#)

Descriptions			
Profit Center	SCHEF6579	Status	Active
Analysis Period	01.01.2017	to	31.12.9999
Name	6579 FIOP-BR		
Long Text	PARTICIPATION 6579 FIOPART PART SER COM		

Unlike reporting profit centers, the description of organizational profit center doesn't matter.

- **Short name** - company code + space + plant "establishment abbreviation" from [PF2 - ZPRI Display table ETAB](#) (using the first 3 chars of the plant)
- **Long text** - plant NAME1 from view V_T001W (if needed using standard SLV abbreviation for the site) + abbreviated NAME2 from V_T001W if making it clearer.

Person Respons.	X
Department	X
Profit Ctr Group	CHEFCHEOPS

The only reporting profit centers impacted by the change of the Person Responsible field are the ones started by D* and F*

The field is not used but since it's a mandatory field put a X.
The field is not used

The field "Department" of the profit center is a critical field that is used in BW to assign a cost center to a plant and then to a site.

ex:

- The cost center 7512-1022 is assigned to the profit center 7512-10449
- The department of the profit center 7512-10449 is 7512

=> The cost center is assigned to the plant 7512

Depending on the type of profit center the department code can be:

- a plant code = a code maintained in table T001W in WP1 or PF1 (1)
- a generic plant code (only in WP1) created by GBU (2). This code doesn't exist in the table T001W.

	Exception: Facilities cost centers included in the group ZCBS-FFAC of the ZCBS hierarchy	= plant code = first digits of the profit center code ★ ex: department of profit center 7925 -I0569 = 7925																															

General Data			
Profit Center	7925-I0569		
Controlling Area	2006	Solvay Europe	
Validity Period	01.01.2021	To	31.12.9999

Basic Data	Indicators	Company Codes	Address	Communication	History
Descriptions					
Profit Center	7925-I0569	Status	Active		
Analysis Period	01.01.2021	to	31.12.9999		
Name	7925 Corp Busin Serv				
Long Text	7925 Corporate Business Services - VZR91				
Basic Data					
User Responsible					
Person Respons.	CBS				
Department	7925				
Profit Ctr Group	ZFR3-VZR91	CGUZR091 MISC RHODIA NA CGU			

★ For historical reasons, there may be exceptions to the codification

The code of the standard hierarchy in PF2 is KCHEF_HIER and it is structured in 2 main sub-groups:

- **CHEFCHEOPS** for reporting profit centers
- **CHEF_CNTRL** for non reporting Profit Center

GB = GBU code
 GAA = Group Activity 1 code
 S = Sector code
 AA = Activity code
 PPP = Plant code

KCHEF_HIER	HIERARCHIE DE CENTRES DE PROFIT
CHEF_CNTRL	Non Cheops Profit centers
Cxxx	Organizational profit centers
...	
CHEFCHEOPS	
Exxxx	Reporting profit centers - Company code
...	
BDGB	GBU name
BDGBGAA	GBU name - Group Activity 1 name
DSAA 0	Activity 1 name
Dxxxx	Reporting profit centers - Activity 1
...	
PPP	Plant name
Fxxxxxxxx	Reporting profit centers - PIF
...	

All profit centers must be attached to a node in the standard hierarchy
 In WP2, there is one standard hierarchy per Controlling Area. Its structure must follow the standard rule

The profit center hierarchy can be displayed in SAP with:

- KCH3 - Display profit center hierarchy
- WP2 - ZWFAI052 - Display profit centers
- table ZWFAT186

Value stream

The value stream (VS) is the lower level of the profit center hierarchy in WP1 system, where the profit centers are assigned through the "Profit Ctr Group".

Historically, the value stream nodes in the profit center hierarchy were used for some Industrial reporting on specific production lines but currently this reporting level is no longer used, unless there's a justified request for it. Nevertheless, we need to maintain the value stream node at a standard level.

Most of the value stream codes are already defined for a certain GBU and geographical zone and just need to be extended to a particular company code. It has to be always checked before creating a new code.

VALUE STREAM CODIFICATION in the profit center hierarchy:

X	X	X	X	-	V	Z	Y	M	N
---	---	---	---	---	---	---	---	---	---

XXXX - Stands for the company code

V - Standard for all the VS codes

ZY - Is used to define a specific GBU code as follows (the currently active GBU's are the ones highlighted):

•ZA for a VS under GBU ACETOW
•ZB for a VS under GBU PEROXIDES
•ZC for a VS under GBU COATIS

•ZD for a VS under GBU SODA ASH
•ZE for a VS under GBU ECO SERVICES
•ZF for a VS under GBU FIBRAS
•ZG for a VS under GBU ENG PLASTICS
•ZH for a VS under GBU SPECIAL CHEM
•ZI for a VS under GBU EMERGING BIOCHEMICALS
•ZJ for a VS under GBU TECHNOLOGY SOLUTIONS
•ZK for a VS under GBU COMPOSITES MATERIALS
•ZL for a VS under GBU SOLD ACTIVITIES (2003-2010)
•ZM for a VS under GBU SPECIALTY POLYMERS
•ZN for a VS under GBU NOVECARE
•ZO for a VS under GBU AROMA PERFORMANCE
•ZP for a VS under GBU POLYAMIDE & INTERMEDIATES
•ZQ for a VS under GBU Oil & Gas
•ZR for a VS under GBU CBS (former NON REPARTI RHODIA)
•ZS for a VS under GBU SILICA
•ZT for a VS under GBU RARE EARTH SYSTEMS
•ZY for a VS under GBU ENERGY

M - stands for the geographical zones, as follows:

EU: 0, 1, 2
NA: 3, 4
LA: 5, 6
AP: 7, 8
WW: 9

N - it's a serial number

Note: The value stream codes have to be included in table [ZWFAT187](#) to be able to define the related descriptions in several standard languages.

For this, the codification has to be converted to an 8 digit code as follows (some of the digits are already defined when establishing the VS node in the profit center hierarchy):

C	G	U	Z	Y	0	M	N
---	---	---	---	---	---	---	---

CGU - Standard for all the standard VS codes

ZY - Is used to define a specific GBU code, as per list above

0 - Always zero

M - stands for the geographical zones, as per list above

N - it's a serial number

- The Business area indicated in view **V_134G** must be consistent with the Reporting division of the profit center.

STEP 5

Check that the other profit centers for the same PIF are linked to the same or other Reporting divisions.

Taking into account that they are exceptions, such as for PIF U* for utilities which can be assigned to several reporting divisions, as well as some product lines for which there are several Reporting divisions (e.g. chlorovinyls Russia <> Thailand <> Mercosur)

When a profit center becomes obsolete, we need to lock it :

- Set the "lock indicator" in "indicators" tab.
- Insert ZZ at the end of the short description.
- Insert ZZZZ at the beginning of the long description.

As the BFC Act1 or the plant is part of the code, we cannot change their meaning, retaining the code.

The only case where we can update profit center short description is when a production facility changes of "ETAB" code, still representing the same reality. This can occur usually in a Legal Entity Reduction or Carve Out project.
