

PF2 - Report Z1K_MLSTATUS

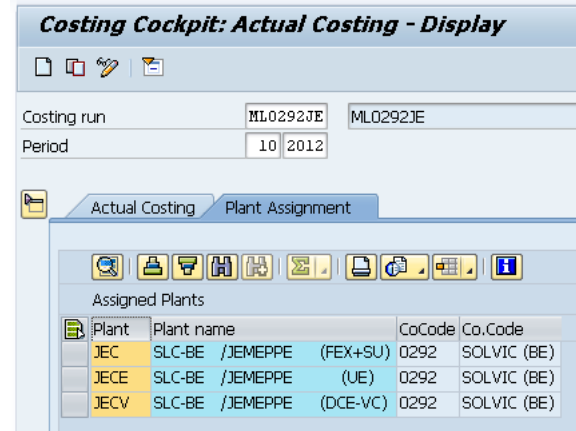

STEP 1

Enter the transaction **Z1K_MLSTATUS**.

In the field Valuation Area, add the plants considered in the costing run.

Check on CKMLCP the plants used for a specific costing run and copy them into Z1K_MLSTATUS.

STEP 2

In the report result, status 70 is "Closing entry performed", so it's OK.

plant	material	valuation	ID	docum.	ST	material text	Ending Stock	Receipts	Consumptions	TM

STEP 3

In the bottom of the screen you will find the description of each status.

If code 05 appears it means that the article was not touched in any transaction

If code 60 appears it means that ML was reversed but missing the relaunch.

When executed the report Z1K_MLSTATUS after Material Ledger, the expected status should be 01, 05 and 70.

- 00 - Not defined
- 01 - New objects
- 05 - Period Without Stock Opened
- 10 - Period opened
- 20 - Price change completed
- 30 - Qties & values entered
- 31 - Values entered
- 40 - Price det. single-level
- 50 - Price det. multi-level
- 60 - Closing entry reversed
- 70 - Closing entry performed
