

Aroma Supply Chain Dashboard

A dashboard dedicated to GBU Aroma Performance.

In this dashboard, 8 types of information can be obtained directly from each tabs.

Tab name	Purpose
KPIs Definitions	Reasons for OTIF / Non-OTIF
Inventory Level	Inventory on a Monthly / Quarterly / Global level / Monthly / 12 months rolling
Logistic & Packaging Costs	Display Logistic / Packaging cost based on Monthly / 12 months rolling
OTIF-C	Statistics display of OTIF records Monthly / Quarterly against type mode of transportation
Non OTIF-C	Breakdown reasons for not complying with OTIF
CCR	Link to SMART Complaint Dashboard (requires authorization)
Sales Plan Accuracy	Sales trend of Actual versus Forecast on a 1-month / 3-month / 6-month scale by Material
Production Plan Accuracy	Production volume Plan versus Actual with 1 month comparison by Material
Schedule Adherence	Schedule adherence matrices displayed by Material

Inventory Level tab

A typical graphical chart depicts the inventory based on the selection criteria is shown once the tab is clicked on.

To refine the search, please define the selection criteria:-

- Zone
- Company

Multi Selection Box

Zone: AP

Company: Solvay (Zhenjiang) Chem

- Date / Month
Click on the desired Year and Month. Once selected, it will appeared as Green.

2012 2013 2014 **2015** 2016 Jan Feb Mar Apr May Jun Jul Aug Sep Oct Nov Dec Month Year ▼

- Once the criteria are selected, it will appeared under the **Current Selections** option box.
Graphs will be automatically refreshed based on the criteria selected.

Current Selections

Non OTIF-C Tab

In the **Non OTIF-C** tab, it detailed the various reasons contributing to non OTIF and its breakdown percentage.

- 2 types of graphs are further presented in the tab.
 - Pareto of Orders by Non OTIF Causes** : Breakdown of order counts against OTIF reasons.

- Nb of Non OTIF Order Trend** : Number of non OTIF orders by month or quarter

A link will be redirected to **Complaint CCR Dashboard**.

Sales Plan Accuracy Tab

In this tab, a graph showing the trend between Actual and Forecast quantity against the data selected is displayed.

This is similar to clicking the  **Sales in Tons** icon located on the lower left hand side of the page.

When the  **Sales Plan Accuracy** icon (located on the lower left hand side of the page) is clicked, it showed sales plan accuracy gap analysis trend of 1/3/6 month.
Data extracted are at material group level. Change the **Year / Month** (in green) according to desired selection.
