

PF2 - Report Z1K_MLSTATUS

STEP 1

Enter the transaction **Z1K_MLSTATUS**.

In the field Valuation Area, add the plants considered in the costing run.

Check on CKMLCP the plants used for a specific costing run and copy them into Z1K_MLSTATUS.

Plant	Plant name	CoCode	Co.Code
JEC	SLC-BE /JEMEPPE (FEX+SU)	0292	SOLVIC (BE)
JECE	SLC-BE /JEMEPPE (UE)	0292	SOLVIC (BE)
JECV	SLC-BE /JEMEPPE (DCE-VC)	0292	SOLVIC (BE)

STEP 2

In the report result, status 70 is "Closing entry performed", so it's OK.

plant	material no.	valuation	ID docum.	ST material text	Ending Stock	Receipts	Consumptions

STEP 3

In the bottom of the screen you will find the description of each status.

If code 05 appears it means that the article was not touched in any transaction

If code 60 appears it means that ML was reversed but missing the relaunch.

When executed the report Z1K_MLSTATUS after Material Ledger, the expected status should be 01, 05 and 70.

00	- Not defined
01	- New objects
05	- Period Without Stock Opened
10	- Period opened
20	- Price change completed
30	- Qties & values entered
31	- Values entered
40	- Price det. single-level
50	- Price det. multi-level
60	- Closing entry reversed
70	- Closing entry performed
