

A50 - Internal Visits

First steps in Convergence

Added Value

Convergence is the new place to manage your internal meetings with your Solvay colleagues. You can do that with Convergence's "Internal Visits"

With Convergence, you can create a new Internal Visit very quickly and share it with your colleagues and collaborate with them through the [Chatter](#). You can also make your Internal Visits private (confidential) and share only with identified users.

You can manage the outcome of your meetings by assigning tasks to your colleagues and create [Value Creation](#) actions & benefits straight from your Internal Visit.
