## Formats used in Solvay ONE

Module	Keepeek		Visual
	Content page	Master page	
<b>Space banner image</b> <ul style="list-style-type: none"> <li>• The banner is responsive and it depends of the width of the screens (up to 1920px PC screen resolution)</li> <li>• Therefore it is recommended to provide the original image up to 1600px so that bigger screens will still see a banner that are not degraded</li> <li>• Meanwhile, on smaller screens, width of banner image will be adapted but the height will be fixed at 180px or 380px depending on page types</li> <li>• Note the recommended zone for the image details</li> </ul>	1600*180px	1600*320px	<p style="text-align: right;">1600 px</p>  <p style="text-align: right;">180 px / 320 px</p>
<b>Banner Slideshow image</b>	1060*303px	1060*303px	<p style="text-align: right;">1060 px</p>  <p style="text-align: right;">303 px</p>
<b>Editorial and Spotlight image/video</b>	400*266px On 1,5 ratio	Not used	
<b>Tile image</b> <ul style="list-style-type: none"> <li>• Has to be white and transparent</li> </ul>	Not used	65*65px	

<p><b>Rich text image/video</b></p> <ul style="list-style-type: none"> <li>• When contributor inserts an image in the rich text, a preview mode of the image/video is being called upon (corresponds to xlarge in Keepeek)</li> <li>• Contributor is free to set width and height of it's image/video</li> <li>• When Finish editing (publishing), image/video generated is based on whr in Keepeek, with the format (width and height) defined by contributor</li> </ul>	width max at 900px	Not used	
---	--------------------------	-------------	--
