

CKMLRUNDEL - Delete Costing Run

STEP 1

This transaction can only be executed if the Costing Run wasn't processed yet. Otherwise, the message "No authorization to delete the log" will be retrieved.

So, if the Costing Run wasn't processed yet, and when the naming of the Costing Run was not correctly chosen or when the plant selection was mistaken, we can delete it.

Insert the posting period, the fiscal year and the name of the costing run that you want to delete. After, press .

Delete a Costing Run in Actual Costing

Costing run	3SPT079
Posting period	11
Fiscal Year	2009

STEP 2

The system issues a warning about the consequences of this deletion.

- Click

Yes

The costing run is deleted and the system indicates from which table was the data deleted from.
