

MM03 - Find the plant type in WP1

STEP 1

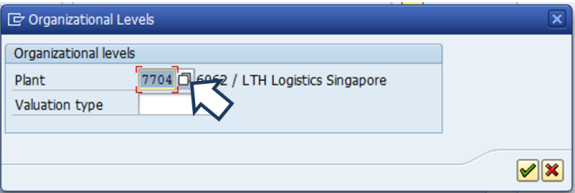

Display the material master data of any code with MM03 and click on

The screenshot shows the SAP 'Display Material' screen for material 129227. The 'Org. Levels' button is highlighted with a red box and an arrow. The 'Plant' field shows 7704 and the 'Valuation type' field shows 6062 / LTH Logistics Singapore.

STEP 2

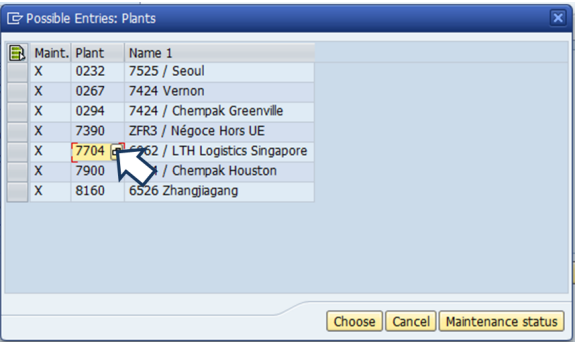

Click on the button beside the plant code

The 'Organizational Levels' dialog box is shown. The 'Plant' field contains 7704 and the 'Valuation type' field contains 6062 / LTH Logistics Singapore. A red box highlights the button next to the plant code, with an arrow pointing to it.

STEP 3

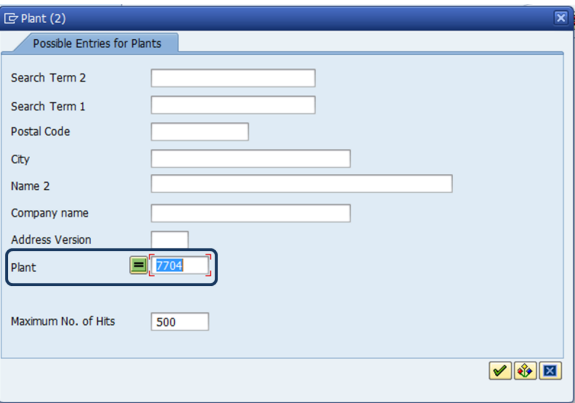

Click on the button beside any plant code

The 'Possible Entries: Plants' dialog box is shown. It lists several plants with their maintenance status. The plant 7704 is highlighted with a red box and an arrow. The 'Choose' button is visible at the bottom.

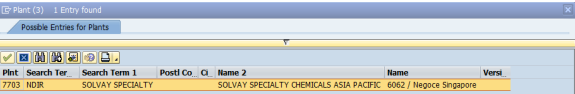

STEP 4

Fill possible entries depending on your need

The 'Plant (2)' dialog box is shown. It contains fields for Search Term 2, Search Term 1, Postal Code, City, Name 2, Company name, Address Version, and Plant. The 'Plant' field is highlighted with a red box and contains 7704. The 'Maximum No. of Hits' is set to 500.

STEP 5

The 'Plant (3) - 1 Entry found' dialog box is shown. It displays a table with the following data:

Plant	Search Ter	Search Term 1	Postl Co.	Cl.	Name 2	Name	Versi
7703	NDIR		SOLVAY SPECIALTY		SOLVAY SPECIALTY CHEMICALS ASIA PACIFIC	6062 / Negoce Singapore	

The plant type of 7703 is **NDIR**
