

CK40N - Recalculate the standard cost estimates

If corrective actions have been taken, the costing run must be re executed

STEP 1

1. Click on  in the column « Execute » / line « Selection »
2. Check Start Immediately
3. Click on 

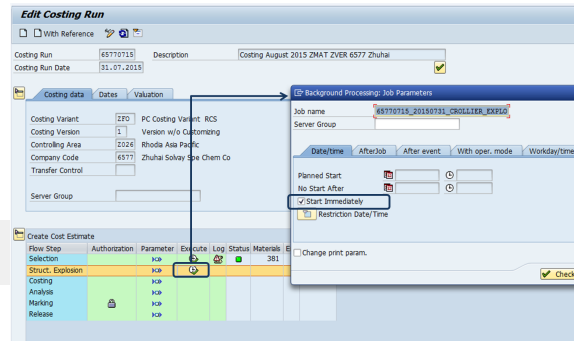

Flow Step	Authorization	Parameter	Execute	Log	Status	Materials	Er	Still Open
Selection	K-C				P	381	0	
Struct. Explosion	K-C				A	381	0	
Costing	K-C					381	0	0
Analysis	K-C							
Marking	K-C							
Release	K-C							

STEP 2

1. Click on  in the column « Execute » / line « Struct explosion »
2. Check Start Immediately
3. Click on

? Unknown Attachment

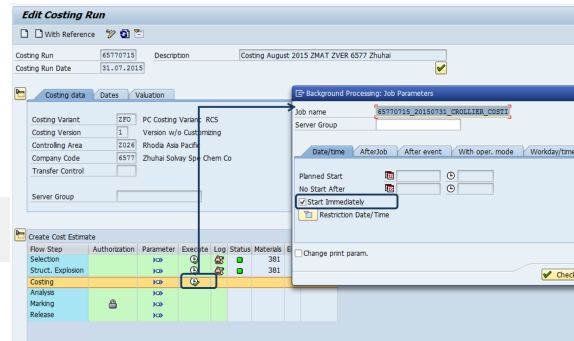

Flow Step	Authorization	Parameter	Execute	Log	Status	Materials	Er	Still Open
Selection	K-C				P	381	0	
Struct. Explosion	K-C				A	381	0	
Costing	K-C							
Analysis	K-C							
Marking	K-C							
Release	K-C							

STEP 3

1. Click on  in the column « Execute » / line « Costing »
2. Check Start Immediately
3. Click on

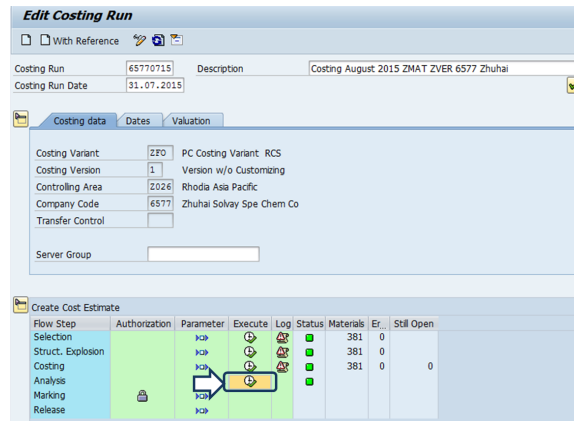

? Unknown Attachment

Flow Step	Authorization	Parameter	Execute	Log	Status	Materials	Er	Still Open
Selection	K-C				P	381	0	
Struct. Explosion	K-C				A	381	0	
Costing	K-C				A	381	0	0
Analysis	K-C							
Marking	K-C							
Release	K-C							

STEP 4

Click on  in the column « Execute » / line « Analysis »

Flow Step	Authorization	Parameter	Execute	Log	Status	Materials	Er	Still Open
Selection	K-C				P	381	0	
Struct. Explosion	K-C				A	381	0	
Costing	K-C				A	381	0	0
Analysis	K-C				A			
Marking	K-C							
Release	K-C
