

Get an "Awesome table" embed code from a Google site

Overview

An "Awesome table" is way to display a Google spreadsheet with advanced functionalities on Google Site pages. This section describes the procedure to embed it into a page in Solvay ONE.

Pre-requisite: the "Awesome table" to embed must be used in a Google site. If needed, you could follow the [Awesome table dedicated documentation](#) .

Advanced level

This operation requires to browse some code to identify a specific part to copy-paste.

Step-by-step guide

Step 1: on Google site side: Get the Awesome table code

1. Reach the Google site page containing the Awesome table

2. Press "F12", then "Select an element to inspect".

The screenshot shows the Google Apps Network website. The 'Awesome Table (WITH INTERACTIVE CONTROLS, USING GOOGLE SHEETS)' is visible. It has two filters at the top: 'Type' and 'Area'. The 'Type' filter is currently set to 'Choose a value...' and the 'Area' filter is also set to 'Choose a value...'. Below the filters is a table with columns: Title, Type, Area, Type, and Description. The table lists several items, including 'Hierarchical data validation', 'MetaDrive', 'TeamSite View on Sites', and 'Tracking Visitors on Your Site'. The developer tools are open at the bottom, showing the 'Elements' panel with the HTML structure of the page. The 'Style' panel is also open, showing the default styles for the selected element.

3. Click on the first filter of the Awesome table.

The screenshot shows the Google Apps Network website. The 'Awesome Table (WITH INTERACTIVE CONTROLS, USING GOOGLE SHEETS)' is visible. The 'Type' filter is now selected, and the 'Area' filter is also selected. The table below the filters is the same as in the previous screenshot. The developer tools are open at the bottom, showing the 'Elements' panel with the HTML structure of the page. The 'Style' panel is also open, showing the default styles for the selected element. The 'Type' filter is highlighted in blue, indicating it is the selected element.

4. Scroll-up the bottom pane to display the <iframe ... par of code.

While hovering over this code, the whole Awesome table should be highlighted.

5. Right click this part of the, then choose "Copy"

Step 2: on Solvay ONE side, Insert the code at the right place

Achieve the "Step 2" from the following guide: [Embed an "Awesome table" in a Solvay ONE Editorial](#). or [Embed an "Awesome table" in a Confluence](#)
