4.1	Search & Find	Installed Packages On AppExchange you can browse, test drive, download, and install pre-built apps and components right into your salesforce.com environment. Learn More about Installing Packages. Apps and components are installed in packages. Any custom apps, tabs, and custom objects are initially marked as "In Development" and are not deployed to your users. This allows you to test and customize before deploying. You can deploy the components individually using the other features in setup or as a group by clicking Deploy.
