

I settle Process Orders (PP orders)

Process: Monthly costing and cost accounting closing

Responsibility area: Perform Costing Monthly Closing

- For **calculation of variances and posting**, don't forget that you have to run always the transactions in processing mode (**ZWFA76**, **KKS1**, **KKS2**, **ZWFA78**, **CO88** and **KO88**). If you ran it before in test mode, you will have to run it again in processing mode.
- For **WIP** (**ZWFAA07**, **KKAO** and **KKAX**) you have to run the transaction only in test mode, NOT in processing mode.
- For the **check of the process orders balance** (**KOC4**), it is preferable to launch it in background in order not to reduce the SAP performance for the other SAP users.
- The **error messages** that can appear when running each step can be checked in the spool log. Each one has a specific treatment, but only the ones generating inconsistencies require analysis. If necessary, Regional Cost Accounting FiO will provide additional support to reach a solution.

xx << I settle Process Orders (PP orders) >> xx

Guideline

Before start processing the process orders costs you have to run cycle **CCCCNA** in real mode in order to settle the "process order variances statistics" from cost center CCCC-9201 (In some cases there are cost centers that start with PPPP-9201 for historical reasons). At this stage only small amounts should be on cost center (rounding amounts). In case of high amounts in the balance should be analysed the reason before doing the settlement. For threshold please consider 3K€.

STEP 1

Start the transaction using the menu path or transaction code **KEU5**

Double-click

SAP Easy Access

Execute Actual Assessment: Initial Screen

STEP 2

On the Execute Actual Assessment screen, make the following entries:

	Field name	User action and values	Comment
0	Controlling Area (dialog box)	Enter controlling area	Only needed if dialog box displays.
1	Periods	Enter one number in each field, for example, from 1 to 1	Jan =1, Dec=12
2	Year	Current year	
3	Test run		Use test run until the run is error-free
4	Detailed lists	x	
5	Cycle	Enter the cycle code => the Start Date comes when you click Enter	You can execute several cycles in one execution

STEP 3

Execute

It is compulsory to clear Error messages before saving the cycle

Cycle	Start Date	Text	Senders	Number of receivers	No.
6062-A	01.01.2015	6062 Sales & CNP	8	9	
6062-B	01.01.2015	6062 Funct & FAC	63	66	
6062-C	01.01.2015	6062 R&I / ACAR / PSROP	20	20	

 Inform the person in charge of cycles maintenance if there are errors messages and wait until there are solved before starting the next step

Click **Warning** or **Errors** to display messages

 Messages are displayed

You can click:

: hide information

and/or  : warning messages

and then click  to get more detail regarding the error message

- GA717 - No receiver tracing factors defined
- GA721 - A sender is credited by more than 100 %

STEP 4

Go back to the initial screen by clicking 

STEP 5

Untick the field "Test run" and execute 

The process is completed without error

STEP 1

Start the transaction using the menu path or transaction code

 **KKS1 - Collective Processing**

We can have sometimes some unbalanced process orders after the settlements due to late postings or materials lately costed. To perform the variance calculation and the settlement to COPA of these orders we have to do it individually using transactions KKS2 (for calculation) and KO88 (for the settlement).

Unable to render {include} The included page could not be found.

KO88 - VARIANCE SETTLEMENT

STEP 1

Start the transaction using the menu path or transaction code

 **KO88 - Settle**

STEP 2

1. Enter the order to be settled
2. Enter the settlement period
3. Enter the fiscal year
4. Select "test run" to preview the settlement without posting

Execute 

The screenshot shows the 'Actual Settlement: Order' screen. Annotations include:

- 1: Order field with value 'Z7728-1342'
- 2: Settlement period field with value '8'
- 3: Fiscal Year field with value '2015'
- 4: Test Run checkbox (checked)
- 6: Posting period field with value '8'

STEP 3

1. Check if there are error messages
2. Click on  to display messages

Come back to the initial screen with 

The screenshot shows the 'Actual Settlement: Order Basic list' screen. Annotations include:

- 2: Selection icon (top left)
- 1: Processing completed with no errors message (bottom)

STEP 1

Start the transaction FB50

1. Document and Posting date (Closing month)
2. Accounts to post the WIP
3. Posting Key (Debit or Credit)
4. Amount of WIP
5. Order in Work in Progress

WIP Calculation

Make sure that you have previously [calculated the WIP](#) and collected the orders in WIP

STEP 2

Post WIP journal using the following accounts:

Cost Account: 98350200

G/L Account: 34000200

Posting Keys

The cost account should be credited and the G/L account debited.

The cost account must have a cost object assigned which will be the order that was previously calculate as Work in Progress (WIP).

Post the journal to the closing month (M)

Save the document clicking on  and you will get the document number that you have just posted.

Reverse WIP

After posting the Work in Progress you must reverse it on following month. Ensure that next step is also done.

Tasks to be completed when documenting an SAP Transaction, Report or Message code.

1. Title of the page = SAP Transaction code, SAP Report or SAP Message

2. Add the following Labels, respectively:

- SAP Transaction => "sap_transaction"
- SAP Report => "sap_report"
- SAP Message => "sap_msg"

3. On the left section, describe the steps. On the right section, insert respective print screens and additional guidelines, if needed (e.g. Main selections of the transaction...)

Reverse's booking date

Previous posting was done in	Reverse is to do in
Current period	Same day as the previous posting
Closed period	The closed period cannot be opened then the reversal has to be done as soon as possible in the current (open) period
Current period and in a different currency from EUR	Same day as the previous posting and with the same currency rate
Closed period and in a different currency from EUR	First day of the open period or day of the reverse posting with the same currency rate

Cases of reverse:

- Wrong posting in the current period

- Wrong posting in a closed period
- Reverse of accrual
- etc

STEP 1

Use transaction code:

 FB08 - Reverse Document: Initial Screen

 If one item in the previous posting is cleared, it is not possible to reverse it. You have to reset the cleared item or use the transaction **FBR2**.

 The system does automatically clear the cancelled items when we use this transaction (FB08).

Enter the transaction name in the SAP command field:

Next screen opens:

STEP 2

Select the document to be reversed

 You can display the reversal before saving, if you wish to confirm you are reversing the correct entry.

Fill in the following fields:

Document number	Document number that has to be cancelled / reverse
Company code	Concerned company code
Fiscal Year	Is always the current fiscal year
Reversal reason	Reverse reason (with the match code)
Posting date	Reverse posting date
Posting period	Period is automatically adapt with the posting date
Void reason code	Is not a mandatory field (with the match code)

STEP 3

Save the reverse document by clicking on 

Enter the barcode if it is required:

- Document
- company code
- period
- reversal reason

Reverse Document: Header Data

Reverse Document: Header Data

Display Before Reversal Document List Mass Reversal

Document Details

Document Number	160000594
Company Code	4056
Fiscal Year	2024

Specifications for Reverse Posting

Reversal Reason	01
Posting Date	
Posting period	
Tax Reporting Date	

Check management specifications

Void reason code	
------------------	--

STEP 4

Check other transactions to reserve documents

Other document reverse transactions:

- [FBR2 - Post Document](#)
- [F.80 - Mass Reversal of Documents](#)
- [FBU8 - Reverse Cross-Company Code Transaction](#)

KKAX

Transaction KKAX can be also used to calculate the WIP when you want to do it for a single order. This is not quite usual once we have KKA0 that give us all orders that are WIP.

If all orders were balanced for closing month means that this task has been successfully executed.
