

AppSheet - Support Model

AppSheet - Support Model

1. End user support - Application is not working as expected.

If you are a end user how is using an AppSheet applicaiton which is not working as expected, and you need support:

- Check the [Application Catalogue](#) and find the application responsible
- Email directly the application responsible

2. Application Developer Support

If you are an Appsheet application developer and there a Appsheet feature which is not working as expected, follow this:

How to create a ticket?

- Go to <https://solway-support-assistant.appspot.com/>
- Describe your issue
