I create the Corporate Insurance allocation cycles << I post the Corporate Insurance accruals estimated values >> I post the Corporate Insurance accruals final values

1. Objective and Scope

1.1 Objective of this Operation

To ensure correct data presentation.

1.2 Scope

All legal entities under the scope of Corporate Insurance Global program.

2. Definitions

3. Tasks description

3.1. *I post the Corporate Insurance accruals*

To run the calculation and postings:

Go to transaction ACACACT.

At the screen, enter the selection parameters:

You can select by company code or for a range of company codes, for specific accrual object categories, or other selections. For insurance, all SBS scope companies should be posted at the same time as a global process. A variant can be created with the selection parameters.

1. **Company Code:** Enter the company codes to be posted
2. **Accrual Object Cat.:** Enter the current year insurance category (YY_INSUR)
3. **Key Date for Accruals:** Enter the current closing month end date in the Key Date for Accruals field
4. **Execution Type:**

- "N" for the first time running the Accrual Engine for the month;
- "R" if it has already previously ran for that company in the month.
- Accrual Engine will not duplicate postings, only process postings if there are new or changed accruals.

5. **Test Run:** Select "Test Run" to check before posting

Manual Accruals: Start Periodic Accrual Run

Display Application Log Reverse Accrual Run

General Data Selections

Company Code	6409	to		
Accounting Principle	IAS	to		
Accrual Type		to		

Restriction of Accrual Objects

Accrual Object Cat.	25_INSUR	to		
Accrual Object Number		to		

Posting Parameters

Key Date for Accruals	31.08.2025
-----------------------	------------

Control Data

Execution Type	N	Normal
<input type="radio"/> Display Application Log		
<input checked="" type="radio"/> Display Results List		
<input type="radio"/> Show Aggregated List		
<input type="checkbox"/> Test Run		

The next screen lists the posting to be made and any errors to be solved before running and posting:

You may also enter other criteria, but to check all postings for a company for all accrual engine objects, leave the other fields blank.

To only see the errors, check the box for "Display differences only."

Execute the transaction

A screen appears showing the postings in accrual engine compared to FI and the differences. If all have been passed to accounting correctly, the differences are zero:

No Messages Maximum Category **No Messages**

CoCd	Year	G/L Account	BCurr	Amountt Posted in the ACE	Amount Posted in FI	Differences at Acct Level
6409	2025	47900100	BRL	1.162.726,96	1.162.726,96	0,00
6409	2025	46950200	BRL	2.769.552,65	2.769.552,65	0,00
6409	2025	98300255	BRL	38.446,40	38.446,40	0,00
6409	2025	98300252	BRL	741.532,52	741.532,52	0,00
6409	2025	98300256	BRL	205.848,65	205.848,65	0,00
6409	2025	98300259	BRL	35.107,77	35.107,77	0,00
6409	2025	98300253	BRL	200.793,63	200.793,63	0,00
6409	2025	98300251	BRL	374.399,92	374.399,92	0,00
6409	2025	98300254	BRL	874,50	874,50	0,00
6409	2025	98300250	BRL	3.316,92	3.316,92	0,00
6409	2025	98300258	BRL	6.505,38	6.505,38	0,00

If there are differences, it means documents still need to be transferred to accounting, but they are blocking for some reason. Check the details of the error message to solve the error then manually pass the document to FI. See instructions, "Manually Transferring Documents to Accounting."

This step should be ran each month after running transaction ACACACT to expense the prepaid. Verify that all inception, inception changes, and periodic postings have all been transferred from Accrual Engine to FI.

3.2. I run the allocation cycles

All cycles are scheduled in SCMA to run at D-3. After cycles run, we have to ensure that insurance cost centers are balanced (for **PF2**, consider cost center **EE800000IN**, where **EE** is company establishment code; for **WP2**, consider the SWEEP cost center **CCCC-5998**, where **CCCC** is company code number).

3.3. I check that Corporate Insurance cost centers are settled

Go to Display Actual Cost Line Items for Cost Centers KSB1 transaction and select the variants:

WP2

- APAC_INSUR_SCO - for APAC entities;
- EMEA_INSUR_SCO - for EMEA entities;
- NAM_INSUR_SCO - for NAM entities;

- LAM_INSUR_SCO - for LAM entities.

PF2

- INSUR_SCO - for all entities
