

Get privilege Access to SAS Platform

To be able to use the SAS software you must first ask the rights to access the SAS platform. By default no one has the access so you need to request it via a ticket :

1. Go to <https://sbs-support.solvay.com/en/support/home>
2. In the "Submit your request" menu, choose "IS Request"
3. Choose the "Big Data & Analytics (Techno) Process"
4. Choose the "SAS" Application

Process *

Big Data & Analytics (Techno) ▼

Application

SAS ▼

In the description of the ticket, please include :

- Your Complete Name / First Name
- Project, according to your project and the environment (DEV, PROD, SANDBOX), the administrator will define on which servers these accesses must be realized.
- Account in the EUA domain ("eua/user_name")
