

IT - ISTAT Monthly Declaration

Tasks to be completed when documenting an operation (from creation to publication)

1. Enter the **Title of the operation / page**

2. Add the following Labels:

- Scope of applicability: ww, country_accounting
- Country or group of countries (if applicable): belux, china, france, italy, lam, nam,uk_ie, bulgaria, dach, netherlands, iberia, poland, latvia, australia, india, japan, south_korea, thailand, singapore
- Unit and Domain according to the [List of labels to be used in the Finance Service Line space](#)
 - E.g. 1: WW Operation in Financial Accounting under domain "Central Finance Processes & Compliance":
 - Labels to be used: **ww**, **financial_accounting**, **central_fin_proc_compliance**
 - E.g. 2: France Operation in Financial Accounting:
 - Labels to be used: **country_accounting**, **france**, **financial_accounting**
(for country operations, the Domain is always country_accounting)

3. Fill in all fields as described above

4. Once the description of the operation is completed, ensure it is approved and published by launching the [SBS-Finance approval workflow](#)

Domain: Country Accounting

Responsibility area: N/A

*Previous OP << IT - ISTAT Monthly
Declaration >> Next OP*

1. Objective and Scope

1.1 Objective of this Operation

The purpose of this document is to explain how to prepare one of the monthly ISTAT declarations.

The Italian National Institute for Statistics (ISTAT) is the main supplier of official statistical information in Italy. It collects and produces information on Italian economy and society and made it available for study and decision-making purpose.

ISTAT currently produces the monthly survey of sales and industrial orders involving about 8,000 companies active in the sectors of mining and manufacturing. Solvay Solutions Italia SpA is one of the firms from which is requested a monthly update regarding the revenue of the company.

The monthly survey "**Indagine fatturato e ordinativi**" refers to internal/external revenue, where "internal" means in Italy and "external" out of Italy, to be divided in UE and extra UE.

1.2. Scope

This procedure applies to WP1 company 8090 and PF1 company 5835.

2. Definitions

See Finance Glossary:

- [ISTAT](#)
- [RCS](#)

3. Tasks description

The procedure should be done by Operations Team every month until D10.

3.1. I extract the SAP information for 8090

3.1.1. I run the SAP transaction KE30

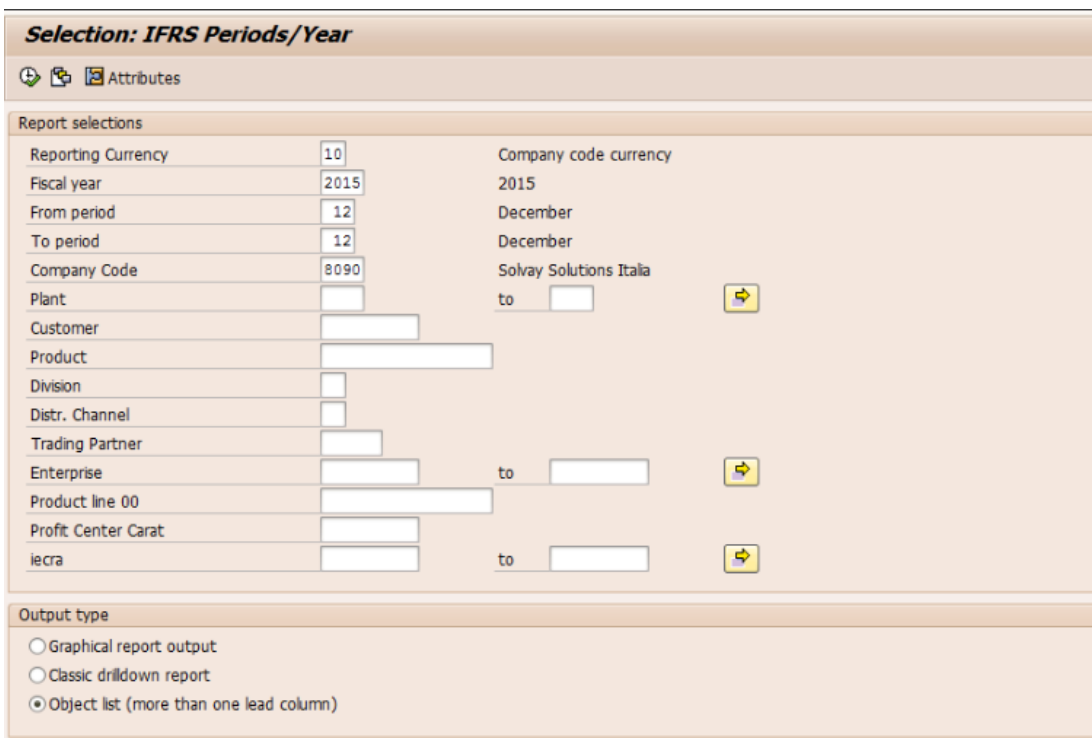

In order to extract the past month revenue figures information we go to transaction KE30 and choose "Operating Concern: Z006".

- 1) Choose report **ZZZ-SOLV00**

- 2) Fill:

- Update the year and period
- Make sure the option "Object List (more than one lead column)" is active

A screenshot of the SAP 'Selection: IFRS Periods/Year' dialog box. The dialog has a title bar 'Selection: IFRS Periods/Year' and a toolbar with icons for 'Report', 'Attributes', and 'Help'. Below the toolbar is a section 'Report selections' with various input fields. The 'Reporting Currency' is set to '10', 'Fiscal year' to '2015', 'From period' to '12', and 'To period' to '12'. The 'Company Code' is '8090', and the 'Company code currency' is '2015'. The 'Plant' is 'Solvay Solutions Italia'. The 'Customer' and 'Product' fields are empty. The 'Division' is '12'. The 'Distr. Channel' is '12'. The 'Trading Partner' is '12'. The 'Enterprise' is '12'. The 'Product line 00' is '12'. The 'Profit Center Carat' is '12'. The 'ieca' field is '12'. The 'Output type' section at the bottom has three radio buttons: 'Graphical report output', 'Classic drilldown report', and 'Object list (more than one lead column)'. The 'Object list (more than one lead column)' option is selected.

and execute.

3.1.2. I prepare the KE30 report

Once the result is displayed change the layout to **/ISTAT 8090** as it is selecting only the columns that are necessary for this analysis plus some information about the shipping country and text to highlight the unassigned items.

Column Name	
Customer	
B00 Net Sales Period	☒
B20 Add N.Sales Int Period	☒
B10 Net Sales Corr. Period	☒
Ship-to country	
Ship-to country(Text)	

This will be the result at this point:

Customer	B00 Net Sales Period	B20 Add N.Sales Int Pe...	B10 Net Sales Corr. Per...	Ship-to country	Ship-to country
2040751	0,00	0,00	0,00	TR	TURKEY
	0,00	0,00	0,00	TR	TURKEY
2041448	0,00	0,00	0,00	IT	ITALY
	0,00	0,00	0,00	IT	ITALY
	0,00	0,00	0,00	IT	ITALY
2042545	0,00	0,00	0,00	DE	GERMANY
	0,00	0,00	0,00	DE	GERMANY
	0,00	0,00	0,00	DE	GERMANY
	0,00	0,00	0,00	DE	GERMANY
	0,00	0,00	0,00	DE	GERMANY
	0,00	0,00	0,00	DE	GERMANY
	0,00	0,00	0,00	DE	GERMANY
	0,00	0,00	0,00	DE	GERMANY
	0,00	0,00	0,00	DE	GERMANY
	28.260,00	0,00	0,00	DE	GERMANY
	33.880,00	0,00	0,00	DE	GERMANY
2042553	0,00	0,00	0,00	TR	TURKEY
	0,00	0,00	0,00	TR	TURKEY
2043755	0,00	0,00	0,00	TR	TURKEY
	0,00	0,00	0,00	TR	TURKEY
	9.133.127,67	1.404.608,60	8.004,44		

At the End Export to Excel and save it.

List Save Local File Spreadsheet

3.1.3. I prepare the EXCEL template

The Template has 5 sheets:

- 2 with the full database of customers and related countries and region:
 - **Anagrafia** = List of customers with their country (simple extraction of report S_ALR_87012180), update, whenever, a new partner appear.
 - **TabellaPaesi** = Area where the countries are (Italy, UE or extra UE)
- 3 to prepare the information to declare:
 - **KE30 Report** = SAP Data
 - **KE30 Final** = KE30 Total amounts by Region
 - **Out KE30 Accs + Amount to Declare** = Amounts to consider that are not in KE30
- **Sheet KE30 report**

1) Open the file with the extraction from KE30 and perform a subtotal by customer summing the columns B00 Net Sales Period, B20 Add N.Sales Int Period, B10 Net Sales Corr. Period.

The result has to be similar to:

Customer	B00 Net Sales Period	B20 Add N.Sales Int Period	B10 Net Sales Corr. Period
2038889	26.788,08	-	-
2038937	78.243,00	-	-
2040310	-	-	-
2040311	-	-	-
2040430	-	-	-
2040472	30.327,66	-	-
2040513	-	-	-
2040538	-	-	-
2040748	-	-	-
2040751	-	-	-
2041448	-	-	-
2042545	62.140,00	-	-
2042553	-	-	-
2043755	-	-	-
	9.133.127,67	1.404.608,60	- 8.004,44

2) Open the support excel file and copy the information to sheet – **KE30 Report** (columns A to D).

A	B	C	D	E
Customer	B00 Net Sales Period 1 EUR	B20 Add N.Sales Int Period 1 EUR	B10 Net Sales Corr. Period 1 EUR	Total Invoiced /FATTURATO
1026	7.552,00	-	-	7.552,00
1063	23.632,49	-	-	23.632,49
1064	-	-	-	-

Note that column "Total Invoiced /FATTURATO" is just the sum the 3 previous columns.

• Sheet **KE30 Final**

This sheet is a copy of the previous data, the **Customer Code** and the **Total Invoiced/FATTURATO**.

Then we will need to add the **Country** of the customer and determine the **Country code** (if it's Italian, European or out of Europe).

Customer	Total Invoiced /FATTURATO	Country	Site Country
1026	7.552,00	GR	EU
1063	23.632,49	CL	EXTRA UE
1064	-	CO	EXTRA UE
1074	-	MX	EXTRA UE
1084	-	TR	EXTRA UE
1107	54.813,85	US	EXTRA UE
1217	32.489,46	JP	EXTRA UE

3rd column formula " =VLOOKUP(A313;anagrafia!A:;4;FALSE)" is retrieving the country from sheet "anagrafia" where you have the full list of customers, update, if necessary.

4th column formula " =VLOOKUP(C313;tabella paesi!A:C;3;FALSE)" is retrieving the necessary country code from sheet "tabella paesi".

Steps to ensure:

1) Check that the total amount of the extraction is according KE30;

2) When the KE30 report is extracted and there is a line with **Not Assigned** we need to search for the corresponding Customer/s.

In SAP we should go to the normal view of the KE30 report selecting "Classic drilldown report", select the Not assigned costumers and then select GoTo – Line items:

- Search for the sender cost center and go to KSB1 to see the details.
- Then select the customer number in column: **Offsetting Acct**

2040538 SOLVAY SOLUTIONS NED	0,00				
2040748 FEDERTRASPORTI SPA	0,00		display line items	check the sender cost center:	
2040751 KEMITEKS KIMYA SAN.	0,00		8090-7130		
2041448 SINTOCHEM SRL	0,00				
2042545 BP EUROPA SE	62.140,00				
2042553 URAS TEKSTIL KIMYA T	0,00				
2043755 PETLAS LASTIK SAN. T	0,00				
Not assigned	-8004,44				
	10.529.731,83				

- Add this Information in the file by Customer Number

1063 RHODIA CHILE LTDA.		23.632,49
1026 AZELIS GREECE S.A. C		7.552,00
53416	-	2.050,00
55496	-	3.147,03
59485	-	2.807,41

- 1) Confirm that there are no errors in the formulas.

If you have missing information for the customers you will have to extract from see in FD03 – customer master data the country of the customer and update sheet "anagrafia".

- 2) The final result should be sum of **Country Code** and for that you just need to refresh the pivot table.

Sum of Total Invoiced /FATTURATO	
Site Country	Total
EU	5.900.446,12
EXTRA UE	1.746.058,51
ITALIA	2.883.227,20
Grand Total	10.529.731,83

CHECK 0,00

- Sheet Out KE30 Accs + Amount to Declare

We have also to consider the **Revenue that is not included in KE30.**

We have to do an extraction on the general account **98100400** and **98100450** for the month treated.

- Enter in FBL3N transaction and select the period of the previous month and he accounts **98100400** and **98100450**
- Insert column: **"Trading Partner"** in the Variant
- Subtotal by Trading partner
- Copy this information to the Excel Sheet

								-220.670,61	EUR						
								-267.460,90	EUR						

Note

Important to retrieve the trading partner and as a reference service invoice is always charged to companies 0001 – 0279 – 4274 – 75233 – 0270.

Afterwards we need to work the data:

- The geographical area:
 - FERALCO + 0279 + 0270 = Italy (Internal)
 - 4274 + 0001 = EU (External)
 - 75233 = Out of EU (External)

Sum these amounts in column "Out of KE30".

Type	From KE30	Out of KE30	TOTAL
EU	5.900.446,12	207.441,12	6.107.887,24
EXTRA UE	1.746.058,51	13.229,49	1.759.288,00
ITALIA	2.883.227,20	46.790,29	2.930.017,49
TOTAL	10.529.731,83	267.460,90	10.797.192,73

- Last table will compile all the information by internal, external and Europe you just need to confirm that in amount to be declared in ISTAT is congruent with the amounts calculated previously.

The amount in Orange should be the total amount / 1000

To be declared in Link:					
https://imprese.istat.it/gxe/index.php?gxe=FATT&de=6iilriaUJxiLiCn/WfAyzA==					
X Istat:					
internal	2.930				
External	7.867				
Europe	6.108				
10.797

- Send the PDF files retrieved from the web and Excel Template to the CAM of the company.

3.3. I submit the PPI_D - Rilevazione dei prezzi alla produzione dei prodotti industriali

3.3.1. I retrieve information from KE30

On a Monthly basis we need to declare to ISTAT the Average price for 3 products (selected randomly).

Go To **KE30**, and select **ZZZ-SOLV00** report.

Insert the period and the company code 8090

Perform the dynamic selection:

- **Ship-to-party:** Only IT
- **Commercial Product:** 90004493, 90004501 & 90004507

3.3.2. I report the figures in ISTAT Website

1) Follow step 4 until "Rilevazioni".

2) Select **PPI_D on the correspondent year**:

 PPI_D - Rilevazione dei prezzi alla produzione dei prodotti industriali - Mercato interno (IST-02650)	Mensile	2018				
Rilevazione dei prezzi alla produzione dei prodotti industriali - Mercato interno - Gennaio *	Mensile	01	01-02-2018	--	inviato	
Rilevazione dei prezzi alla produzione dei prodotti industriali - Mercato interno - Febbraio *	Mensile	02	01-03-2018	--	inviato	
Rilevazione dei prezzi alla produzione dei prodotti industriali - Mercato interno - Marzo *	Mensile	03	01-04-2018	--	inviato	
Rilevazione dei prezzi alla produzione dei prodotti industriali - Mercato interno - Aprile *	Mensile	04	01-05-2018	--	inviato	
Rilevazione dei prezzi alla produzione dei prodotti industriali - Mercato interno - Maggio *	Mensile	05	01-06-2018	--	inviato	
Rilevazione dei prezzi alla produzione dei prodotti industriali - Mercato interno - Giugno *	Mensile	06	01-07-2018	--	inviato	
Rilevazione dei prezzi alla produzione dei prodotti industriali - Mercato interno - Luglio *	Mensile	07	01-08-2018	--	inviato	

3) Select the month you want to report, execute and select "**Entra**"

< > ...

Confirm that you select all items from previous period and run the transaction.

3. Open transaction KE30, report ZZZ-SOLV00 and select only previous period.

Confirm the total value to report in ISTAT by checking the total amount retrieved in FBL3N has to be the same as in KE30 Market product sales without VVC42 Sales royalty revenues. In case of delta (as in the example below) investigate the origin and just highlight it in the file.

FBL3N
