

Create / Update a Web contact

Overview

Create or update a contact from a web site contact form. If you just need to remove a contact, without replacing it, you should use the [Delete a Web contact](#) step-by-step.

Advanced level

This operation needs to use the "Tridion Content Manager" instead of the better known "Site Edit".

Step-by-step

Create or update contact - Step 1

1. According to your entity, go to the following location in the Tridion Content Manager.
<http://contentmanager.solvay.com/>

The screenshot shows the Tridion Content Manager interface. The breadcrumb path is: Content Management > ... > Building Blocks > Component > 1 Internet-Country > Romania. The left pane shows a tree view with 'SW C1 Master-ro' selected, and 'Building Blocks' > 'Component' > '1 Internet-Country' > 'Romania' highlighted. The right pane shows a list of folders under 'Romania'.

a. Create a contact

i Advanced level

This option is valid only when you need to create an additional contact not updating one.

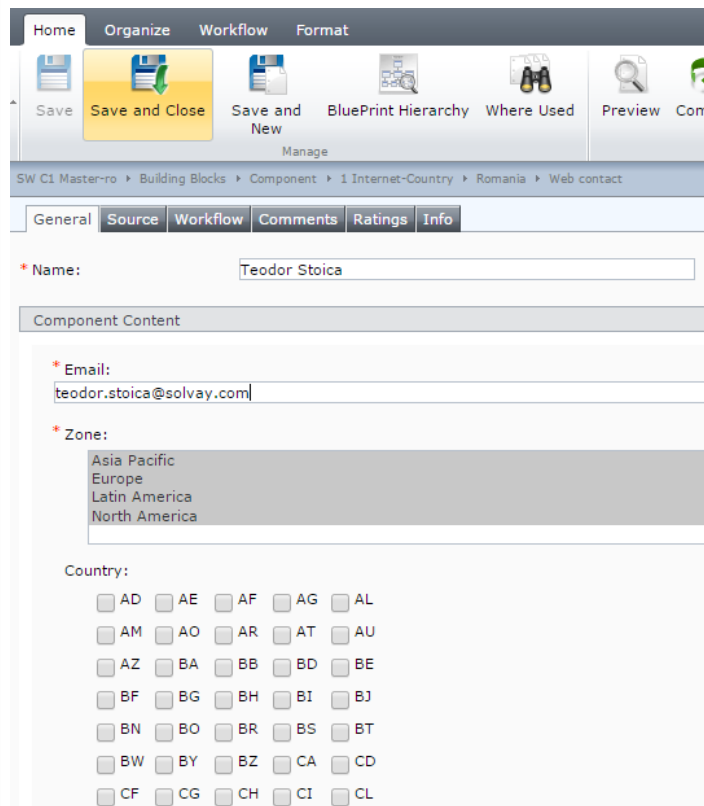

1. On Create tab, click on New Component. A form opens.

2. Fill in the name and the email and associate zones or countries to your contact (depending which scope he will cover).

i Country selection

If no "Country" are ticked, only the "Zones" are taken in account.

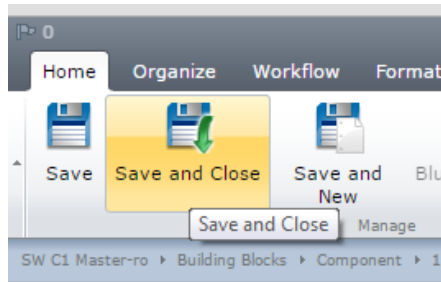

3. Select the contact type
Communications & the concerned
entity

* Contact Type:
Business
Communications
Purchasing

Entity:
Australia
Bicar Z
Bicarbonato
Brand

4. Click on Save & Close to save
your new contact.

b. Update a contact

2. Select the contact to modify &
double click on it to open the form.

3. In the form, update the name &
email if the contact has changed.
You can also modify zone or select
country manually if relevant.

4. Click on Save & Close to save your updated contact.

Step 2: Publish new / updated contact

1. According to your entity, go to the following location in the Tridion Content Manager and select the new / updated contact

2. Click on Publish icon. A pop-in opens. Stick staging & Live & click on publish.

Your new / updated contact will now receive emails when a request will be sent on the contact form.

If you want, you can test the contact form in live website.
