

GS03 - Display Set

STEP 1

Use transaction **GS03 - Display Set**

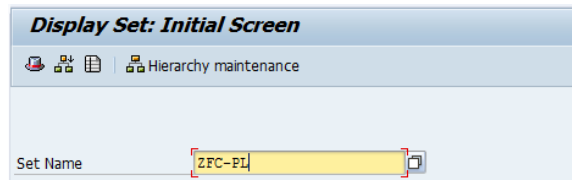

STEP 2

Enter the set name you are looking for

and

	PF2	WP2
Balance sheet	ZFC-BALANCE	ZFC-BALANCE
Profit and Loss	ZFA-PL	N/A

STEP 3

You can drill down by clicking on a group.

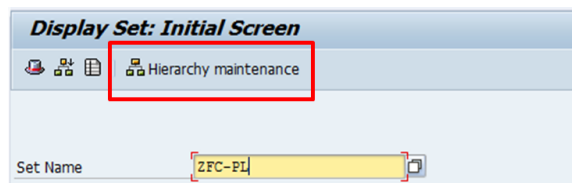

At last you find the accounts that are included in the group.

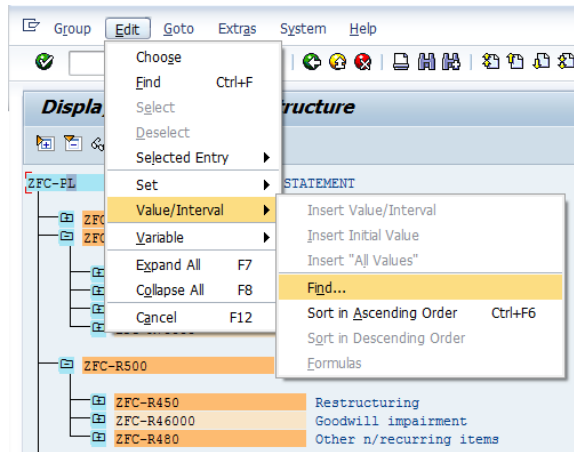

If you want to know in which group an account is included,

Enter the set name, then click on

 Hierarchy maintenance in the initial screen.

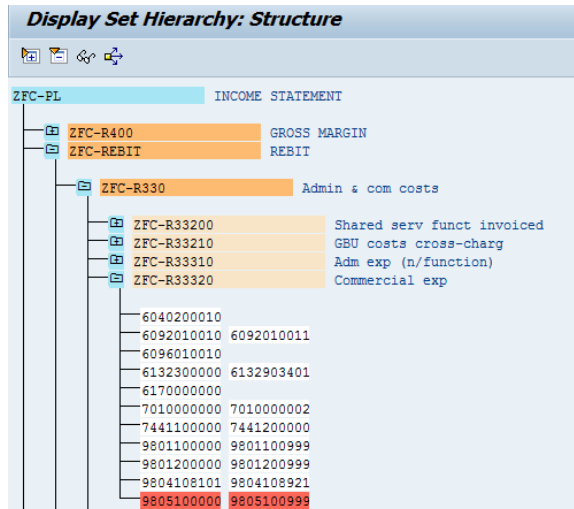

In the menu "Edit" select "Value /Interval" then "Find..."

Enter the account you are looking for
and

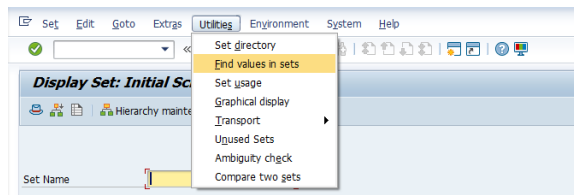

The account is highlighted

Transaction GS03 is also useful to identify all the sets related to one specific cost element.

In "utilities" option select "find values in sets".

Populate the adequate fields or use a variant already created. Click execute button.
