

Rules - PF1 - PIF

It is a family of products

- It is a Code assigned to the materials.
- It aggregates the materials with similar characteristics.
- Material link to PIF is done via the Product hierarchy.

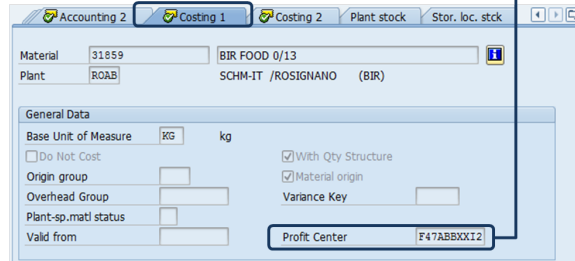

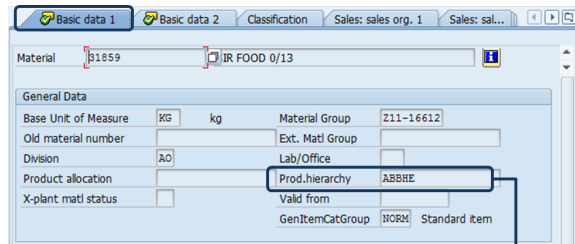

To display the product hierarchy use the table [PF2 - Table ZZRT179V - Product hierarchies](#)

The Product Hierarchy is stored in the view "Basic data 1" or the material master data.

It is consistent with the codification of the reporting profit center that is stored in the view "Costing 1" and contain the corresponding PIF code

For instance the product hierarchy of the material 31859 is ABBHE and its profit center is F47ABBXXI2 where ABB is the PIF.

Display View "Product Hierarchies - Solvay Core": Overview

Product hierarchy	Description	DDV	DPV	Req PIF	Division	Name	DDV	DPV	DCT prx
ABB	BICAK	01.01.1990	31.12.2099		AO	BIR EX. EXTINGUISHER	13.12.2000	31.12.2999	4201
