

CK40N - Check

STEP 1

Check if the step Marking for ZFR9 was successfully performed.

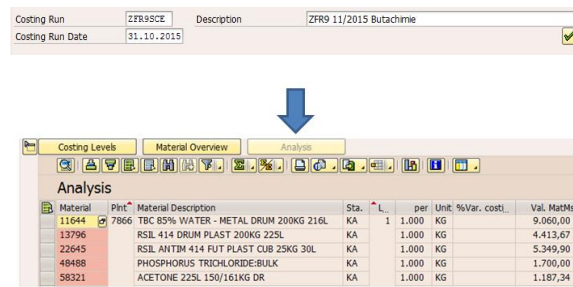

STEP 2

Update the co products commercial price in ZFR3

Go to CK40N and select the Costing Run **ZFR9SCE** of the closing month.

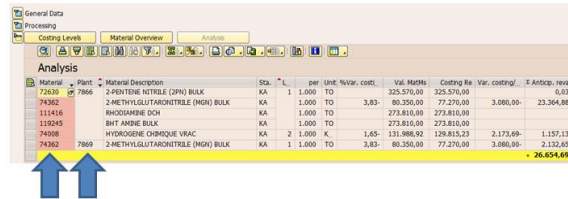

And select option Costing Results and tab Analysis.

STEP 3

Filter by the following list of materials:

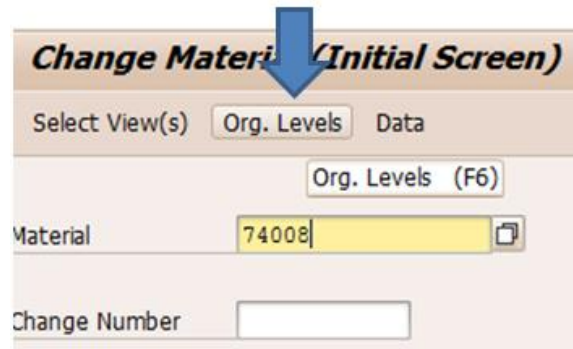

- **74008** H2 (HYDROGENE CHIMIQUE VRAC)
- **74362** MGN (2-METHYLGLUTARONITRILE (MGN) BULK)
- **72630** 2 PN (2-PENTENE NITRILE (2PN) BULK)
- **111416** DCH (RHODIAMINE DCH)
- **119245** BHT (BHT AMINE BULK)

STEP 4

The prices on column Costing Re should be updated in the Master Data of those materials in company ZFR3 (Plants 7852 or 7856).

- 74008 Hydrogène: update the price in plant **7852**
- 74362 MGN: update the price in plant **7852** and in plant **7856**
- 72630 2 PN: update the price in plant **7852**

- 111416 DCH: update the price in plant 7852

- 119245 BHT: update the price in plant 7852

Example

For material 74008 go to MM02 and choose option Org. Levels.

Enter plant 7852, go to tab Accounting 2 and update the price in the box Commercial Price 1 with the information retrieved from ZFR9SCE on column "Costing Re".

Change Material 74008 (/Finished pdt & RM & SF)
