

KK01 - Perform the statistical key figure maintenance /creation

STEP 1

Start the transaction using the menu path or transaction code KK01

Double-click 

 Create Statistical Key Figure : Initial Screen

STEP 2

1. Fill in the code of statistical key figure you want to create

Click on  or 

STEP 3

1. Enter a name
2. Indicate a unit of measure (press Enter to display the name).
3. Specify if the key figure values
 - There are 2 kinds of Statistical Key Figures, with fixed values and with total values, see in the master data in the category field.

For Statistical Key Figures with **Total values**:

- Postings are valid for the month only ; if not posted on a specific

month no value is available;

- Postings in the month are adding ; if a file is posted twice on the same month, the quantities in SAP will be double.

For Statistical Key Figures with **Fixed values** :

- Postings are valid for several months ; if not posted on a specific month the value of the previous month is used;
- Subsequent postings are replacing the previous ones (from the month or before) ; if a file is posted twice on the same month, for each receiver only the last input will be taken into account ;
- As a consequence, ***if we need to fully eliminate a value for a receiver coming from a previous posting (value not replaced), it is necessary to post "0" on this receiver.***
