

# Create a page

 To create content, you need to have the space content creation permission.

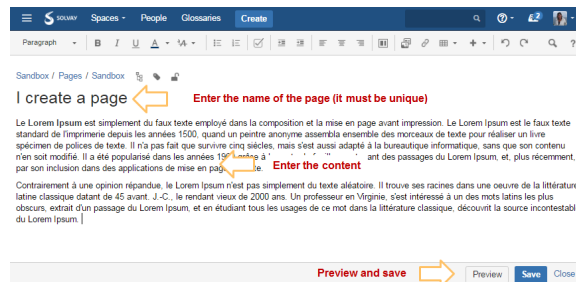

To create a new content in a wiki space:

1. click the wiki menu create button
2. select a template

 by default, the page is created as a child of the actual page. A page can be moved to another location, inside the same space or in another space.

1. Enter the name of the page (it must be unique)
2. Enter the content
3. Preview your page and save
