

KK88 - Actual Settlement

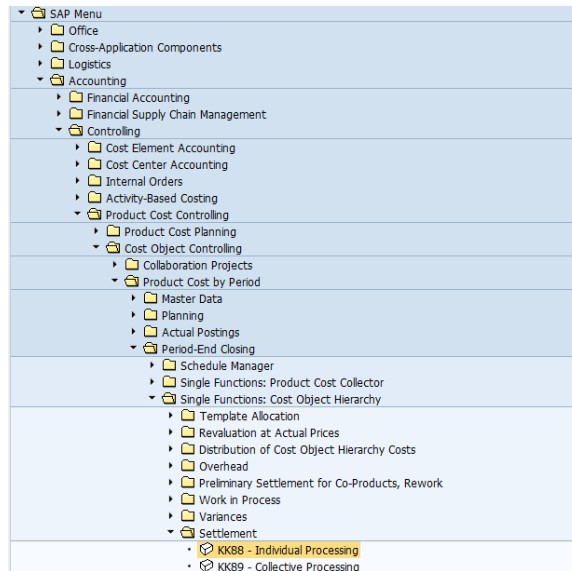

This transaction makes the settlement of the delta calculated on KKP5, allocating them to the profit centers of the materials.

STEP 1

Start the transaction using the menu path or transaction code KK88

Double-click

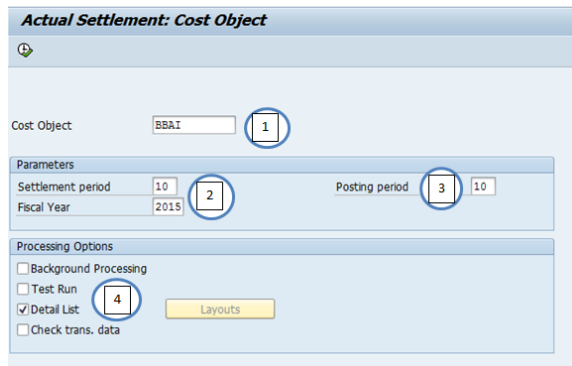

•  **KK88 - Individual Processing**

STEP 2

1. Enter a cost object hierarchy
2. Enter the closing period and the fiscal year
3. Enter the posting period
4. Unflag "Test Run" and flag "Detail lists".

Execute 

A screenshot of the 'Actual Settlement: Cost Object' SAP screen. It shows the following fields: Cost Object (BSA1) with a circled '1' next to it; Parameters section with Settlement period (10) and Fiscal Year (2015) circled with a '2', and Posting period (3) and 10 circled with a '3'; Processing Options section with 'Test Run' circled with a '4' and 'Detail List' checked. There is a 'Layouts' button to the right of the checkboxes.

STEP 3

A list is generated

The list contains the messages concerning the result of the executed transaction.

 If needed or requested, the variances by material can be displayed, clicking on 

After this transaction all the cost collectors (production orders) must be balanced.
