

SCMO - Schedule Manager Monitor

Tasks to be completed when documenting an SAP Transaction, Report or Message code.

1. Title of the page = SAP Transaction code, SAP Report or SAP Message

2. Add the following Labels, respectively:

- SAP Transaction => "sap_transaction"
- SAP Report => "sap_report"
- SAP Message => "sap_msg"

3. On the left section, describe the steps. On the right section, insert respective print screens and additional guidelines, if needed (e.g. Main selections of the transaction...)

STEP 1

Use transaction code:

SCMO - Schedule Manager Monitor: Initial Screen

With this transaction, you will obtain a similar view of the transaction [Z_SCMO_TASKLIST](#) but with other criteria:

- **Application** (which could be combined with the ones hereunder);
- **Time/Dates** (start time and dates and end time and dates);
- **User name**;
- **Job status**;
- **Program name**;
- **Transaction code**;
- **Test run**.

Launch the transaction SCMO and select the parameters you want to monitor.

Then, you will obtain a screen similar with the transaction [Z_SCMO_TASKLIST](#) one, with the same screen but not being able to filter the status.

Screen of transaction [Z_SCMO_TASKLIST](#):

STEP 2

Check other schedule manager transactions

Other schedule manager transactions:

- [SCMA - Schedule Manager](#)
- [Z_SCMO_TASKLIST - Schedule Manager](#)
