

Introduction to CRM

The Solvay CRM program is bringing to the group a **single CRM solution worldwide** that **empowers** different sales, marketing & customer service teams who can **better collaborate** to identify, record and serve customer needs. It supports the objective of becoming a more **customer centric organization**, ultimately supporting **business decision making**.

The CRM solution is built around a set of business processes and underlying applications that helps manage all customer information, activities and conversations. It helps to better understand every customer and deliver the right message or answer.

Objectives & Benefits

Watch this video to know more about CRM...

With the new CRM system, you can benefit from **one source of the truth** for all customer related data and from **enhanced collaboration worldwide**.

One global CRM system

The CRM Roadmap

The Roadmap prolongs full implementation in the GBUs until 2018 to gradually integrate GBUs and new functionalities:

Solvay CRM & Salesforce...

Solvay has identified Salesforce.com as the platform to support its Customer Relationship Management (CRM). Salesforce.com is a cloud-based platform which is quick & fast to design and build, which supports a wide range of customer related processes based on best practices and which offers a user friendly interface to accelerate ramp up and usage.

However, the Solvay CRM solution is more than Salesforce!

It is highly integrated with other systems to better meet the needs of Solvay users, and it provides a **wind** **ow to SAP**

10 key processes in CRM

The Solvay CRM solution supports 10 customer related processes that have been designed according to the needs of the GBU's.

Need Help?

To request any support or if you have identified a bug or incident , please create a Freshdesk ticket using Solvia platform : <https://solvia.solvay.com/>

The screenshot shows the Solvia Freshdesk interface. At the top left is the Solvia logo. The main heading is "We're here to help". Below this is a form with a "Your subject" input field. Below the subject field is a larger text area with a placeholder text: "To have a better and faster resolution to your request, please provide as much details as you can. (Eg. Application, system, transaction name,...)". At the bottom of the form, there is a "Attach documents" button, a "Priority" dropdown menu set to "Low", and a blue "SUBMIT" button. The background of the form is a dark blue with a globe and network icons.

you can copy users with email address , default priority is Low , then Submit . We advise you to put keywords in subject to ease dispatching to correct Agent : CRM - Complaint for example
