3.2.2. I fill the template DE IVA Modulo – Month 201X

Based on the outcome of this report we have to build the template **IT 5835 DE IVA MODULO_MMYYYY** and perform quality check in the end to assess the accuracy of the information that will be delivered.

The Template is divided in four operation types:

1. Sales
2. Purchases
3. Turnover tax on import
4. Intercommunity acquisition

Hereunder, step by step what we need to do for each type of operation:

1) Sales

Copy from the standard report extracted from SAP all the information concerning TAX code report "5T":

- Current no. (Sequential numbering)
- Name of the purchaser
- Document date
- Number of invoice
- Net value (opposite sign)
- Output tax

- Kind of service

, in the column **NET VALUE** and **OUTPUT TAX** the figures should be pasted with positive sign, in case the amount will be negative is because the documents issued for the customer are credit notes.
