Mission

TAS has been tasked with defining and implementing the strategy for technologies and the asset portfolio to ensure all stakeholders are pulling in the same direction to support Market strategies and extract maximum value for Novecare.

TAS's power to deliver on its mission relies on the following levers:

Asset

- Demand-Capacity balance to ensure delivery of growth targets
- Build and execute scenarios to optimize CFROI / deliver strategy
- CAPEX project

Technology

- Competitive landscape analysis
- Competitiveness improvement projects
- Technology roadmaps
- Technology Transfer between zones
- Plant destination for new product introductions
- Greenlight of request for new tolling or buy-resale flows
