

Account: Create a Prospect

Overview

In this section, you will find information about how to create a prospect account in Salesforce

Concerned profiles:

Sales

Step By Step

Table of content

- [Step By Step](#)
- [Related articles](#)
- [Need help?](#)

 Before to create a prospect, search on it to avoid creating a duplicate!

The system will warn you if a duplicate is found (based on name or address)

If the prospect /account does not exist, click on **Create New...** and then click on **Account**

You can now decide the type of account you want to create.

From the list of possible record types, select **Non SAP Customer**

Enter now the **information** on the account

- In Account name, enter the name of the account, for example **'Bayer CROPSCIENCE'**
- Use then the **lookup icon** to search a Corporate Group

Enter the address information (English only). You can also enter the address in a local language, like in Japanese or Chinese characters. That's convenient!

Enter the address information (English only). You can also enter the address in a local language, like in Japanese or Chinese characters. That's convenient!

The screenshot displays the 'Address Information' form, which is divided into three main sections: 'Address Information', 'Local Language', and 'System Information'. The 'Address Information' section includes fields for Country, Street, City, State/Province, Zip/Postal Code, House Number 1, House Number 2, and Region. The 'Local Language' section includes a 'Language' dropdown and a 'Local Language' section with fields for Street, Country Code, City, State/Province, Zip/Postal Code, House Number 1, and House Number 2. The 'System Information' section includes fields for Status, CSR, CSR Queue, PIS ID, RCS ID, and Other ERP ID. A red box highlights the 'Save' button at the bottom of the form. Three callouts provide additional information: one points to the 'Country' dropdown, another points to the 'Local Language' section, and a third points to the 'System Information' section.

The Alphabet field allows user defining in which alphabet (Chinese, Arabic, Thai, etc.) the address in local language is formatted.

System Information fields are not editable by the sales rep. Only System admin have right to update them

A map view of the Accounts address is now displayed directly on the account page. By clicking on the image, a new tab is opened on google maps.

Incoterms & Payment terms are displayed as before on the account layout,with additional list of fields complaint with the future design in Lightening for Incoterms & Payment Terms.

To request any support or if you have identified a bug or incident , please create a Freshdesk ticket using Solvia platform : <https://solvia.solvay.com/>

The image shows a web interface for creating a support ticket. At the top left is the 'S SOLVAY' logo. In the top right corner, there are links for 'FAQ', 'Demo video', 'Contact us', and 'EN'. The main heading is 'We're here to help' with a Solvia logo icon. Below this is a text input field labeled 'Your subject:'. Underneath the subject field is a larger text area with a placeholder text: 'To have a better and faster resolution in your request, please provide as much details as you can (Eg. Application, system, transaction name...)'. At the bottom of the form, there is an 'Attach documents' button with a paperclip icon, a 'Priority: Low' dropdown menu, and a blue 'SUBMIT' button. The background of the interface features a dark blue theme with faint icons of a globe, a Wi-Fi signal, and a person.

you can copy users with email address , default priority is Low , then Submit . We advise you to put keywords in subject to ease dispatching to correct Agent : CRM - Complaint for example
