Step By Step

Definition and Objectives

Definition:

- Accounts are Solvay’s customers, partners and distributors
- Each account stores information such as a name, address, phone numbers and customer attributes ().
- For each account, you can link information such as opportunities, activities, cases, visit reports, notes and attachments.

Objective:

- Create a 360-degree view, cross BUs and GBUs, of an account enabling the required abilities for our sales, service and all other customer facing entities to deliver the highest quality with efficiency.

Account Types & Definitions

An “Account” can have different “types” depending on the nature of the relationship between this account and Solvay Group

Types of Accounts	Definitions
Corporate Group	Account specifically created for grouping accounts under one parent. Corporate Group is not interfaced with SAP
Prospect	Solvay’s potential customer (sold-to or ship-to), not yet recorded in SAP
Indirect Customer	Customer Solvay is not directly doing business with, but is buying Solvay’s products
Non Buying Entity	Account not buying products to Solvay but in relationship with Solvay (i.e. Corporate Centers, Research Centers, Universities, Laboratories, etc.)
Ship-to	SAP customer to whom Solvay is shipping the products
Sold-to & Ship-to	SAP customer to whom Solvay is selling and shipping the products
Key Account	Current or potential account who represent a major & strategic part of Solvay’s growth potential and contribution, with an important marketing stake for Solvay, being reference in the market and willing to partner with Solvay, e.g. on innovation, and a global, regional or local customer with a complex relationship to manage (historical relationship, culture, multiple influencers, ...)

Find an account

There are several ways to find an account:

1 Use the Global Search:
Ex: Bayer Crop*

2 Click on « Account » and look at:
- The recently viewed accounts you have opened
- The views created (ex: My accounts)

3 If you have recently opened the account, open it from the « Recent Items »

Views at your disposal

The following views are

- All Accounts: list all the account ownership, etc.)
- My Account Teams: list all the owner is automatically added user is the owner.
- Recently Viewed Accounts: list all the recently viewed accounts.
- Novecare Accounts: list all the Segmentation object).
- Peroxides Accounts: list all the Segmentation object).
- Performance Polyamides Accounts: list all the Segmentation object).
- Soda Ash & Derivatives Accounts: list all the Segmentation object).
- Special Chemicals Accounts: list all the Segmentation object).
- Novecare Corporate Groups: list all the Segmentation object).
- Peroxides Corporate Groups: list all the Segmentation object).
- Performance Polyamides Corporate Groups: list all the Segmentation object).
- Soda Ash & Derivatives Corporate Groups: list all the Segmentation object).
- Special Chemicals Corporate Groups: list all the Segmentation object).

The following views are configured in the system:

- **Aroma Performance Accounts**: list all the accounts where Aroma Performance is flagged as GBU (in the GBU Customer Segmentation object)
- **Aroma Performance Corporate Groups**: list all the corporate groups that include at least one account flagged for Aroma Performance
- **Silica Accounts**: list all the accounts where Silica is flagged as GBU (in the Customer Segmentation object)
- **Silica Corporate Groups**: list all the corporate groups that include at least one account flagged for Silica

Corporate groups

Corporate groups can be used to get an overview of all accounts, contacts, opportunities logged to the accounts part of a same Group.

GBU Customer Segmentation

Each account can be segmented at the level of the BU or GBU thanks to the “GBU Customer Segmentation”

Business rule & initial data load

At go-live, the GBU Customer segmentation will be loaded based on the Sales Area available in SAP

After go-live, the customer segmentation has to be managed by the Account Team Members

Nb: If you work on a (new) account, a GBU customer segmentation must be assigned

The form is titled 'New GBU Customer Segmentation'. It has two main sections: 'Information (managed by Sales Rep)' and 'Information (managed by CommX)'. The 'Information (managed by Sales Rep)' section includes fields for 'Account' (A ENTERPRISES (MACA)), 'GBU Account Sub-Type' (None), 'Prospect for my GBU' (checkbox), 'GBU' (Click lookup icon...), 'BU' (Click lookup icon...), 'Main End-Use' (Click lookup icon...), and 'GBU Region' (Click lookup icon...). The 'Information (managed by CommX)' section includes fields for 'GBU Customer Classification' (None), 'BU Customer Classification' (None), 'Main Customer Interaction Model (CIM)' (None), and 'GBU Account Type' (Standard Account). There are 'Save', 'Save & New', and 'Cancel' buttons at the bottom of each section.

Assign a GBU Customer Segmentation to an account allows you to find the account by using the GBU specific list views, and to report on all accounts active for your GBU

To add a “GBU Customer Segmentation”, hover on GBU Customer Segmentation and click on New GBU Customer Segmentation

Adding mandat
convert
into a S.
So it's a
take!

Enter now **the information for your GBU**:

•GBU/BU/Main End-Use: Select your GBU, BU and Main End-Use

Assign a GBU Customer Segmentation to an account allows you to find the account when using the GBU specific list views

If the user is not able to find the Main End Use request, the option "Search all fields" should be selected and the GBU Name should be typed on the search in order to list all Main End Use related to the GBU

Account hierarchy

Definition:

- The account hierarchy displays all the accounts part of a same "Corporate Group"
- A "Corporate Group" lists all the accounts which are part of a same "legal" entity. The Group is based on the nature of the account, not based on GBU /BU criteria, nor on business rationales.
- Can be built in the system through a "Parent account" relationship

Objective:

- The Account hierarchy allows to have a consolidated views on business interactions and to manage global consolidation and reporting at a "Corporate Group" level.

To request any support or if you have identified a bug or incident , please create a Freshdesk ticket using Solvia platform : <https://solvia.solvay.com/>

The screenshot shows the Solvia Freshdesk support ticket creation interface. At the top left is the Solvia logo. The header text reads "We're here to help". Below this is a "Your subject:" input field. A smaller text box below the subject field contains the instruction: "To have a better and faster resolution in your request, please provide as much details as you can. (Eg. Application, system, transaction name...)". At the bottom of the form, there is an "Attach documents" button, a "Priority: Low" dropdown menu, and a blue "SUBMIT" button. The background of the form features a dark blue theme with icons for a Wi-Fi signal, a speech bubble, and a globe.

you can copy users with email address , default priority is Low , then Submit . We advise you to put keywords in subject to ease dispatching to correct Agent : CRM - Complaint for example
