

Activity: Create a customer visit in Salesforce and from Google Calendar (Lightning For Gmail)

Overview

In this section, you will find information about how to create an event or a customer visit in Salesforce, and how to invite a colleague or customer contact to the event. You will also find information about how to synchronize events / customer visits from your Google Calendar to salesforce AND from Salesforce to Google Calendar using Lightning For Gmail. This functionality will help you ensure alignment between your calendars and simplify the management of customer visits.

Step By Step

1

Start the creation of your activity by opening the **contact** page in Salesforce

You can create customer visit from different places in Salesforce:

•From an Opportunity

•From a Visit Report

•From an Account

-> In all the cases, the account and/or the contact already recorded at opportunity, visit report and account level will be pre-filled in in the new customer visit
