

FAQ Distribution

Go to this page: <https://www.qualtrics.com/support/survey-platform/faqs/distributions/>

You will find the answers for :

- I am trying to email out my survey, but I keep getting an error message that says my from address/reply-to address does not contain an authorized email domain. What does this mean?
- My participants are telling me that their survey link is not working. What could be causing this?
- what are the differences between the Anonymous link and an Individual link?
- How can I make sure the participant only takes the survey once?
- How can I avoid my emails being marked as spam?
- How do I send reminder emails to only those participants who have not finished their survey?
- How can I insert values from my contact list into the body of my email (First Name, Last Name etc.)?
- How can I embed a survey question directly into the body of my email?
- How can I see who has received an email or who has finished the survey?
- How do I increase my weekly email limit?
- When should I use the Advanced Options for Emails?
- How do I send an email to my contact list without including a survey link?
- How can I make individual links but not use the Qualtrics mailer?
