

A13 - SPEND Analysis Query

BW_QRY_MV_SPD01_0004

This query is aimed to provide you the whole Solvay Purchasing spend from Solvay (PF1), Rhodia (RCS) and Acetow (RHO) legacies.

It provides all the invoicing amount, with or without purchase orders, including logistic costs

You can include or exclude the Joint Ventures turnover

The spend can be displayed in target currency, in local (company) currencies or in the invoice currency

This query is able to give you some PO information such as the PO number and the vendor of PO
