

A14 - PO follow up Analysis Query

BW_QRY_MV_SPD01_0002

This query is aimed to :

Give you the activity (portfolio) in value and quantity for a chosen period.
Ex : Invoicing spend for January 2016.

Track all the document flows history from the PO till the Invoicing document.

Added Value

- One single and common query to get the whole PO /Receipt and Invoice amount instead of several queries previously

SPRINT Glossary

Technical Restriction

Due to technical restriction, huge PO Follow Up extracts don't work with Analysis.

Then, for huge reports (for ex. global domain extract for a 6 month period), thank you to use ANALYZER tool.

For an ANALYZER training, kindly ask [SBS](#).

For other reports (small period, or GBU extracts), Analysis works perfectly.

MANDATORY -

In the report, you need to filter on the same period than the chosen period in the prompt. See details [A1440 - Indicators](#)
