

A1610 - Prompt

blocked URL

- The selection of the period of Non-Conformance analysis is mandatory.
- You can select several values such as the domain, segment or material group but also the coordinator or the author of the notifications.
- An analysis by gravity level is also available

The screenshot shows the SAP A1610 'Prompts' window. The main area is titled 'Specify Value for Prompts' and contains several selection options and input fields. The 'Calendar Month/Year Interval' is highlighted in red. Below this, there are fields for 'Completion Date (Interval, Optional)', 'GBUFunction (Selection option)', 'Zone (IPUR) (Selection Option)', and 'Company code (Selection Option)'. The 'Company code' field is populated with a table of values: 0000, 2990, 2992, 2993, 2995, 2999, and 2999. Below the main area, there are three input fields for 'Notification (Multi Values, Optional)', 'Author (Multi Values, Optional)', and 'Coordinator (Multi Values, Optional)'. At the bottom, there is a 'Gravity (Multi Values, Optional)' field.

Company code (Selection Opt)				
11	0000	2990	2992	
11	2950	2993	2993	
11	2055	2994	2995	
	#	2996	2997	
		2998	2999
