

Corporate website Homepage update

Overview

This document describes how to update the home page of corporate internet website

Advanced level

This operation needs to use the "Tridion Content Manager" instead of the better known "Site Edit".

Table of content

 - [Update "Solvay Business Solutions" discover content](#)

Step-by-step

Update the homepage slideshow

Upload the banner image

- Prepare banner images (size 800 x 800px)
- Upload it into [Keepeek](#), section [Internal library / Functions / Communications / banners for internet](#)

Naming convention: date-country-banner-title

Create the banner component

1. In [Tridion back office](#), go to the dedicated folder to create your banner and click on New component:
 - [SW C1 Master-en\Building Blocks\Component\1 Internet Corporate\Corporate Communications\Banner](#)
 - Fill-in the name (you can use the same naming convention as the banner you just created in Keepeek)
 - Fill-in the title: it will appear on the picture
 - Browse the folders to select your picture from Keepeek
 - Add a link if needed (link to a component or to another website)
 - Save and close to save your banner.

Update the banner slideshow component

- Open the banner slideshow component:
 - [SW C1 Master-en\Building Blocks\Component\1 Internet Corporate\Corporate Communications\Homepage Banner Slideshow](#)
- a. change the existing banner clicking on
- b. Delete an existing banner by clicking on
- c. add a new banner by clicking on
- Save & Close your component to save the update

Publish the update(s)

- Publish each banner in STAGING in the publication environment :
 - [\SW W1 Inter Corp-en\Building Blocks\Component\1 Internet-Corporate\Corporate Communications\Banner](#)
- Publish banner slideshow in STAGING in the publication environment :
 - [\SW W1 Inter Corp-en\Building Blocks\Component\1 Internet-Corporate\Corporate Communications\Homepage Banner Slideshow](#)
- Check the updates in staging.
- Once validated, publish each banner then the banner slideshow in LIVE

Attention

Don't forget to check the page in LIVE

Update the homepage poster

Poster can be used with only a picture, a picture and a link or like a spotlight with a title and a link

You can put only one poster in the index homepage

Create the poster image (if needed)

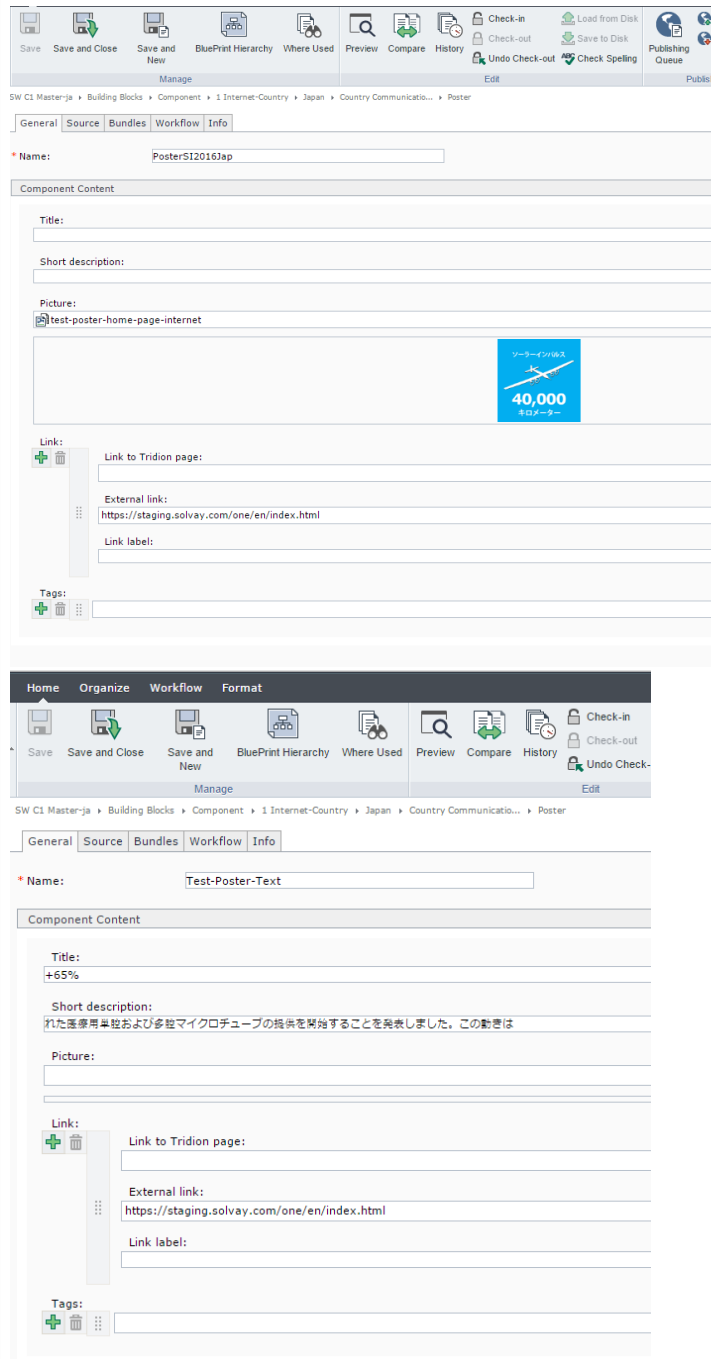

- Prepare poster images (size 400x400 px)
- Upload it into [Keepeek](#), section [Internal library / Functions / Communications / posters](#)

Naming convention: date-country-poster-title

Create the poster component

- In [Tridion back office](#), go to the dedicated folder to create your poster and click on Create new component:
 - [SW C1 Master-en\Building Blocks\Component\1 Internet Corporate\Corporate Communications\Poster](#)
 - Fill-in the name (you can use the same naming convention as the poster you just created in Keepeek)
 - Then, you have different possibilities:
 - add the poster image from keepeek by clicking on 
 - then browse the folders to select your picture from Keepeek
 - Fill-in the title: it will appear on a blue background
 - Add a link if needed (link to a component or to another website)
 - Save and close to save your poster.

The screenshot displays the Tridion back office interface for creating a new poster component. The top navigation bar includes icons for Save, Save and Close, Save and New, Blueprint Hierarchy, Where Used, Preview, Compare, History, Check-in, Check-out, Load from Disk, Save to Disk, Check Spelling, and Publishing Queue. The breadcrumb trail shows the path: SW C1 Master-ja > Building Blocks > Component > 1 Internet-Country > Japan > Country Communication... > Poster.

The main form is titled "PosterS12016Jap" and has tabs for General, Source, Bundles, Workflow, and Info. The "General" tab is active, showing the following fields:

- Name:** PosterS12016Jap
- Component Content:**
 - Title:** (empty)
 - Short description:** (empty)
 - Picture:** test-poster-home-page-internet (with a thumbnail image showing a blue background with white text "40,000" and a small graphic)
 - Link:**
 - Link to Tridion page:** (empty)
 - External link:** https://staging.solvay.com/one/en/index.html
 - Link label:** (empty)
 - Tags:** (empty)

The bottom section of the interface shows a similar form for a component named "Test-Poster-Text". The breadcrumb trail is: SW C1 Master-ja > Building Blocks > Component > 1 Internet-Country > Japan > Country Communication... > Poster. The "General" tab is active, showing the following fields:

- Name:** Test-Poster-Text
- Component Content:**
 - Title:** +65%
 - Short description:** れた薬用単位および多粒マイクロチューブの提供を開始することを発表しました。この動きは
 - Picture:** (empty)
 - Link:**
 - Link to Tridion page:** (empty)
 - External link:** https://staging.solvay.com/one/en/index.html
 - Link label:** (empty)
 - Tags:** (empty)

Publish the poster component in your homepage

- Go to the homepage and open it
 - [SW W1 Inter Corp-en/Root/index](#)
 - In Component presentations tab, remove the existing poster and click on insert
- Browse the folders to insert it and select central promotion component template. Click on select then close.
- Save & Close your page to save your change
- Publish your homepage in staging and check the page in staging.
- Once validated, publish your homepage in live

Attention

Don't forget to check the page in LIVE
