Step-by-step

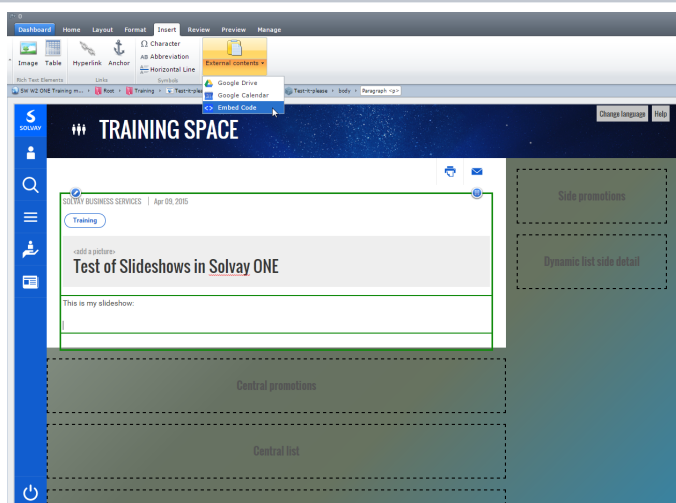

Previous procedure (not working anymore) :

Step 1: Create the Slideshow and get the integration code within Keepeek

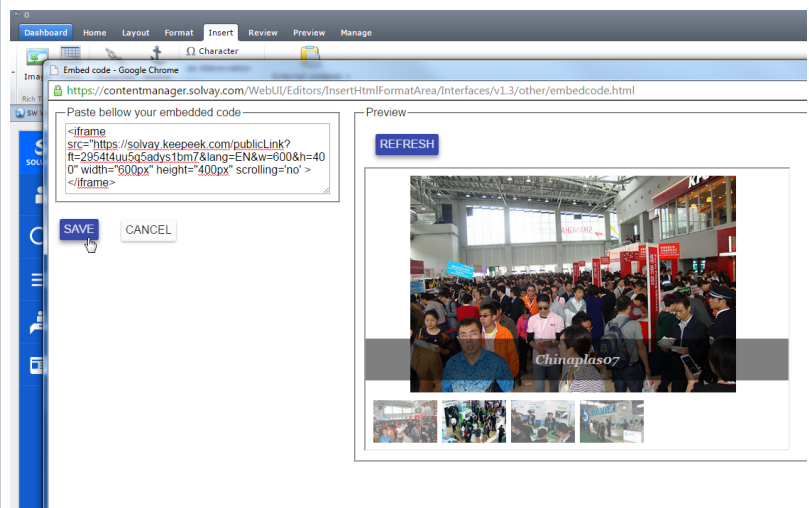

Use the following guide to create a slideshow, then get its integration code: [Generate a Gallery \(Slideshow\) on a Website](#)

Step 2: Integrate the Slideshow to your Editorial

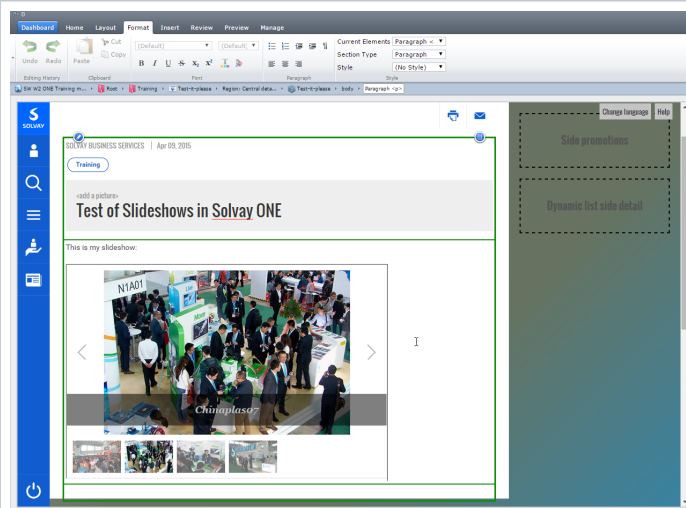

1. While editing your Editorial rich text, place your cursor where to integrate the slideshow, then press "External contents" > "Embed Code" from the "Insert" tab.

2. Paste your slideshow code copied from Keepeek (see step 1) into the dedicated field, then press "Refresh" to get a preview.

3. Your slideshow is integrated, if you need to change the photo legends, go to Keepeek and update the media "title" property.

4. Finish the editing and exit the Edit mode to view your slideshow in Staging.
