

BASF launches Pillar™ G Intrinsic™ brand fungicide

PUBLICATION DATE 23-Oct-12

Test fungicide for turf professionals to be labeled for disease control and plant health

BASF today announced the launch of its Pillar™ G Intrinsic™ brand fungicide , the third fungicide brought to the professional turfgrass market since 2010 that is labeled for disease control and plant health. Pillar G Intrinsic brand fungicide is a granular product that combines triticonazole, the same active ingredient in Trinity® fungicide , and pyraclostrobin, a key active ingredient in Honor® Intrinsic brand fungicide.
