

BD plant operated by Tobu Butadiene at lower rates

DATE : 2013-09-20

Tobu Butadiene Co. Ltd is operating its butadiene (BD) plant at reduced capacity levels. A Polymerupdate source in Japan informed that the plant is presently operating at 80% of production capacity owing to dull demand and pricing fundamentals. Located at Chiba in Japan, the BD plant has a production capacity of 130,000 mt/year.
