

SM plant not to be taken off-stream by IRPC

DATE : 2013-10-03

IRPC Public Co will not be undertaking a maintenance turnaround at its Styrene monomer (SM) plant in 2014. A Polymerupdate source in Thailand informed that the plant is presently operating at 80% of production capacity. Located in Rayong, Thailand, the plant has a production capacity of 200,000 mt /year.
