

SM plant planned to be restarted by Lotte Chemical

DATE : 2013-06-27

Lotte Chemical is in plans to restart a styrene monomer (SM) plant. A Polymerupdate source in South Korea informed that the plant is likely to restart in end-June 2013. The plant was shut on June 10 owing to technical issues.

Located in Daesan, South Korea, the plant has a production capacity of 560,000 mt/year.
