

SM plant operated by Asahi Kasei at lower capacity levels

RELEASED ON 24/06/13 (DD/MM/YY)

Asahi Kasei Corporation is operating its No. 3 styrene monomer (SM) plant at reduced rates. A Polymerupdate source in Japan informed that the plant is running at 70% of production capacity.

Located at Mizushima in Japan, the No. 3 SM plant has a production capacity of 390,000 mt/year.
