

EVA plant to be started by LG Chem

RELEASED ON 03/06/13 (DD/MM/YY)

LG Chem is likely to start a new ethylene vinyl acetate (EVA) plant. A Polymerupdate source in South Korea informed that the plant is slated to commence commercial production in November 2013.

Located in Daesan, South Korea, the plant has a production capacity of 140,000 mt/year.
