

ACN unit restarted by Pemex

RELEASED ON 07/03/13 (DD/MM/YY)

Pemex Petroquimica has restarted an acrylonitrile (ACN) unit in Mexico

A Polymerupdate source in Mexico informed that the unit was restarted over last weekend. It was shut towards the end of January 2013 owing to feedstock shortage.

Located in Morelos, Mexico, the unit has a capacity of 60,000 mt/year.
