

# Mitsui Chemicals India Expanding into Life-sciences Field

RELEASED ON 14/03/13 (DD/MM/YY)

Mitsui Chemicals India is to soon start market research on businesses related to life sciences, with the focus on pharmaceutical and agrochemical intermediates and eyeglass-lens monomers. Headquartered in New Delhi, the Mitsui Chemicals subsidiary is expected to establish the new businesses as a third core source of revenue and profits after businesses in automotive parts and packaging materials.
