

SM plant likely to be taken off-stream by Tianjin Dagu

RELEASED ON 27/02/13 (DD/MM/YY)

Tianjin Dagu Chemical is in plans to shut a styrene monomer (SM) plant for a maintenance turnaround.

A Polymerupdate source in China informed that the plant is likely to be shut for a maintenance turnaround in late March- early April 2013. The plant is likely to remain off-stream for around two weeks.

Located in Tianjin, China, the plant has a production capacity of 500,000 mt/year.
